Persons requiring an interpreter, materials in alternate format or other accommodations to access this meeting are encouraged to contact the Burnett County Clerk at least 48 hours prior to the meeting.
MINUTES
Land Use and Information Committee
January 2, 2019

MEMBERS PRESENT Norm Bickford, Brent Blomberg, Jim Paden, Chuck Anderson, Ed Fischer, Duane Johnson and Craig Conroy (9:20 a.m.).

CALL TO ORDER Chairman Bickford called the meeting of the Land Use and Information Committee to order at 9:00 a.m. in Room 165 of the Burnett County Government Center.

NOTICE POSTED IN ACCORDANCE TO WIS. STAT. 19.84 OPEN MEETING LAW

PUBLIC COMMENTS No public comments.

APPROVAL OF AGENDA ORDER Motion to approve the agenda order as presented was made by Supervisor Johnson, seconded by Supervisor Anderson. Motion carried, voice vote.

APPROVAL OF MINUTES OF THE DECEMBER 4, 2018, MEETING Motion to approve the minutes of the December 4, 2018, meeting was made by Supervisor Blomberg, seconded by Supervisor Paden. Motion carried, voice vote.

PUBLIC HEARING County Surveyor/Land Information Director/Zoning Administrator Jason Towne read the Notice of Public Hearing as published in the Burnett County Sentinel on December 12 and 19, 2018.

CONDITIONAL USE PERMIT #CUP-19-01 – HULSEY Public notice is hereby given to all persons in the Town of Oakland, Burnett County, Wisconsin, that Mark Hulsey has made application for a conditional use permit per the terms of the Burnett County Land Use and Shoreland Protection Code of Ordinances to allow a camper year around, for up to three years, on Yellow Lake, located at 8151 Park St, in the RR-1 zoning district, the Westerly 165 feet of Lot 34, Block 10, Jensen’s Lakeshore Division of Yellow Lake, Sections 19 and 30, T40N R16W.

Public hearing opened.

Mark Hulsey is currently building a garage on the property and plans on constructing a house or cabin. There is a new septic system and well along with electric and water.

Public hearing closed.
Burnett County Staff Report Item – If considering approval then the following item(s) may be included in the motion; these are part of the guidelines from the committee:

1. Only one camper allowed on the parcel.
2. Follow all local, county, state and federal requirements for this activity.

Motion to approve Conditional Use Permit #CUP-19-01 – Hulsey, subject to recommendations of the staff was made by Supervisor Blomberg, seconded by Supervisor Paden. Motion carried, voice vote.

MAP AMENDMENT #MAP-19-01 – LIND, KASEL & MEISTER To rezone the SE ¼ of the SW ¼ of Section 19, T38N R14W, Town of Dewey, from A (Exclusive Agricultural) to A-2 (Agricultural-Residential) zoning district. Zoning change requested by John Rawlings.

Public hearing opened.

John Rawlings whom applied for the rezone and is also the former property owner, spoke on behalf of the current property owners. Mr. Rawlings owns the back 40 acres, Brian and Trudy Meister own the farmland and Michael Lind & Lynn Kasel own the hunting land. The hunting land has never been farmed. They would like to preserve the farmland and use the valley for hunting land. The property was surveyed last summer and they were unaware of the zoning when they split the parcel.

Public hearing closed.

Correspondence from the Town of Dewey is in favor.

Burnett County Staff Report Item – If considering approval then the following item(s) may be included in the motion; these are part of the guidelines from the committee:

1. Follow all local, county, state and federal requirements for this activity.

Motion to approve Map Amendment #MAP-19-01 – Lind, Kasel & Meister, subject to recommendations of the staff was made by Supervisor Johnson, seconded by Supervisor Fisher. Motion carried, voice vote.

Details of the proposed revision are available at the Burnett County Land Use/Zoning Office, the Burnett County Clerk’s Office, and on the Burnett County website at http://www.burnettcounty.com/index.aspx?NID=1108.

DISCUSS VARIOUS ORDINANCE AMENDMENTS IN CHAPTER 30 (LAND USE) AND CHAPTER 45 (SHORELAND PROTECTION) Mr. Towne would like to look at CUP changes and will further discuss at the next committee meeting on February 5, 2019. Currently conditional use permits are good for one year and you can extend it for one year. Mr. Towne and Corporation Counsel David Grindell will further discuss a three year CUP to bring information to the next meeting with the proper language in the ordinance.
DISCUSS 2018 AERIAL PHOTOGRAPHY Mr. Towne commented the aerial photography did not turn out as nice as was expected. The leaves were still on the trees so the pictures are not acceptable. Approximately half of the county has usable photography.

DISCUSS/APPROVE 2019 COUNTYWIDE 6-INCH COLOR AERIAL PHOTOGRAPHY Mr. Towne discussed the option to approve a 2019 aerial flight for $36,040.00 and the contractor would pay the other half of the 2019 flight. They can use half of the aerial flight photos from 2018 that were acceptable. The next aerial photography will take place in 2022.

Motion to approve 2019 countywide 6-inch color aerial photography for $36,040.00 was made by Supervisor Blomberg, seconded by Supervisor Conroy. Motion carried, voice vote.

COUNTY SURVEYOR/LAND INFORMATION REPORT Mr. Towne reviewed submitted department reports and answered committee questions. The Barron County surveyor who will be contracting with Burnett County for services will start in January.

ZONING REPORT Mr. Towne reviewed submitted department reports and answered committee questions.

FUTURE AGENDA ITEMS Discuss various ordinance amendments in Chapter 30 (Land Use) and Chapter 45 (Shoreland Protection).

NEXT MEETING February 5, 2019.

ADJOURNMENT Motion to adjourn was made by Supervisor Paden, seconded by Supervisor Bickford. Motion carried, voice vote. Chairman Bickford adjourned the meeting at 10:06 a.m.
Chapter 30 - LAND USE

Footnotes:

--- (1) ---

Editor’s note—Printed in this chapter is the land use ordinance adopted March 8, 1971, as amended through August 20, 2009. The history note for this amended ordinance will be to the sections as they appear in the pamphlet of compiled ordinances indicating the section number for identification purposes only and such section includes all amendments to date even though such amendatory ordinance is not included in the history note. All amendatory ordinances adopted after August 20, 2009, are included in the history note to the amended section.

State Law reference—Land use, planning and zoning, Wis. Stats. § 59.69 et seq.

ARTICLE I. - IN GENERAL

Sec. 30-1. - Authority.

Pursuant to the authority granted in Wis. Stats. §§ 59.69, 59.694, 87.30, and 91.30, the county board does ordain and enact this chapter regulating and restricting the location, construction and use of buildings, structures, and the use of land in the unincorporated portions of the county and dividing the county into districts.

(Land Use Pamphlet, § 1.1)

Sec. 30-2. - Applicability.

All of the towns of the county are subject to county shoreland and floodplain zoning within floodplain and shoreland areas described in chapter 22 and chapter 45. Where a county zoning ordinance enacted under a statute other than Wis. Stats. § 59.692 is more restrictive, that ordinance shall continue in full force to the extent of the greater restrictions.

(Land Use Pamphlet, § 1.2)

Sec. 30-3. – Interpretation and severability.

The provisions of this chapter shall be held to be minimum requirements, adopted for the promotion and protection of the public health, morals, safety, or the general welfare. Whenever the requirements of this chapter are in contrast with the requirements of any other lawfully adopted regulations, ordinances, or private covenants, the most restrictive, or that imposing the higher standards, shall govern. If any section, clause, provision or portion of this chapter is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this chapter shall not be affected thereby.

(Land Use Pamphlet, § 1.3)

Sec. 30-4. - Definitions.

For the purposes of administering and enforcing this ordinance, the terms or words used herein shall be interpreted as follows: Words used in the present tense include the future; words in the singular number include the plural number; and words in the plural number include the singular number. The word “shall” is mandatory, not permissive. All distances unless otherwise specified shall be measured horizontally. All distances shown are in feet, unless indicated otherwise.
(1) **Accessory structure** means a subordinate structure on the same parcel as the principal structure which is devoted to a use incidental to the principal use of the parcel. Accessory structures include, but are not limited to, detached garages, sheds, barns, gazebos, patios, decks, swimming pools, hot tubs, fences, doghouses, swing sets, wood sheds, tool sheds, freestanding solar panels, retaining walls, driveways, parking lots, sidewalks, detached stairways and lifts. Non-habitable accessory structures which are detached and independent of any other structure and which are less than 100 square feet in footprint (except for those which require permits per other sections of the county ordinances) will not require a land use permit provided that such structures meet the dimensional and setback requirements of this chapter and Chapter 22 floodplain and Chapter 45 requirements. Any addition to a non-habitable accessory structure which results in the entire structure being larger than 100 square feet will require a land use permit.

(2) **Accessory use** means a use subordinate to and serving the principal use on the same lot, and customarily incidental thereto.

(3) **Addition** means a new, contiguous, weatherproof, roofed structure connected to an existing structure.

(4) **Adult entertainment facility** means any facility, store or structure used in the distribution or viewing of sexually-explicit or graphic material designed for adult viewing.

(5) **Adult themed store/premise** means a business that sells or displays items related to sexual gratification, such as sex toys, erotica, pornographic material, adult movies and adult magazines. This also includes adult massage parlors, adult tanning salons and nudist camps/campgrounds.

(6) **Attached building** means there are contiguous, weatherproof roof and walls between two or more structures at least 6 feet wide at any point.

(7) **Average lot width for non-riparian lots** is calculated by averaging the measurements of the shortest horizontal distance between side lot lines at the following locations:

   (a) The front lot line. For lot width averaging only, the definition of front lot line is the line which abuts a road. For corner lots the higher ranking road will be considered the front. Ranking highest to lowest is: Federal Road, State Road, County Road, Town/Village Road, Private Road. For corner lots where each road has the same ranking then the shortest side shall be used for averaging purposes. When the lot has no road frontage, or the road frontages are equal in ranking and length, then the front will be considered the side which contains the access point to the lot.

   (b) The building setback line (from the front lot line or road right-of-way whichever is greater).

   (c) The rear lot line. For lot width averaging purposes only on non-riparian lots, the definition of rear lot line is the line opposite the front lot line. When there are two or more lines opposite of the front lot line the shortest line will be used for averaging purposes. When there is no line opposite of the front lot line then a value of zero will be used for averaging purposes.

(8) **Building** see definition of “Structure”.

(9) **Building envelope** means the three-dimensional space within which a structure is built.

(10) **Bunkhouse/temporary guest quarters** means an accessory structure or part of an accessory structure with or without plumbing which is used as temporary sleeping quarters only.

(11) **Campground** means a parcel or tract of land owned by a person, business, state or local government that is designed, maintained, intended, or used for the purpose of providing campsites offered with or without charge, for temporary overnight sleeping accommodations which meets the requirements in section 30-543(b)(1)m.

(12) **Camping unit** means any portable device, no more than 400 square feet in area, used as a temporary shelter, including but not limited to a camping trailer, motor home, bus, van, pickup truck or tent that is fully licensed, if required, and ready for highway use.
(13) **Chimney** means as defined in SPS 320.07(13) Wis. Adm. Code.

(14) **Common open space** means undeveloped land within a planned residential development that has been designated, dedicated, reserved or restricted in perpetuity from further development, and is set aside in the interest of the residents of the development. Common open space shall not be part of individual residential lots. It shall be substantially free of structures, but may contain historic structures and archeological sites including Indian mounds, and/or such recreational facilities for residents as indicated on the approved development plan.

(15) **Conservation easement** means the grant of a property right or interest from the property owner to a unit of government or nonprofit conservation organization stipulating that the described land shall remain in its natural, scenic, open or wooded state, precluding future or additional development.

(16) **Conditional use** means a use that is specifically listed in a local zoning ordinance as a conditional use, and that can only be permitted if the Burnett County Land Use and Information Committee determine that the conditions specified in the ordinance for that use are satisfied.

(17) **Corner lot** means a parcel that has public right-of-way frontage on two or more sides of the lot. This would include both easement and fee roads.

(18) **County zoning agency** means the committee or commission created or designated by the county board under Wis. Stats. § 59.69(2)(a) to act in all matters pertaining to county planning and zoning. In Burnett County this committee is called the Land Use and Information Committee.

(19) **Department** means the Department of Natural Resources.

(20) **Development** means any artificial change to improved or unimproved real estate, including, but not limited to, the construction of buildings, structures or accessory structures; the repair of any damaged structure or the improvement or renovation of any structure, regardless of the percentage of damage or improvement; the construction of additions or substantial improvements to buildings, structures or accessory structures; the placement of buildings and structures; mining, dredging, filling, grading, paving, excavation, or drilling operations; the storage, deposition or extraction of materials or equipment, and the installation, repair or removal of public or private sewage disposal systems or water supply facilities.

(21) **Development envelopes** means areas within which grading, lawns, pavement and buildings will be located.

(22) **Drainage system** means one or more artificial ditches, tile drains or similar devices which collect surface runoff or groundwater and convey it to a point of discharge.

(23) **Dwelling** means a building designed or used as the living quarters for one family. A dwelling includes manufactured homes. Manufactured homes are built to meet standards established for manufactured housing construction and safety standards as administered by the U.S. Department of Housing and Urban Development (H.U.D.). This H.U.D. code took effect on June 15, 1976.

(24) **Dwelling, duplex** means a dwelling on one parcel containing separate living units for two families which may have joint services and must share a common wall and roof.

(25) **Dwelling, multifamily** means a dwelling or group of dwellings on one parcel containing separate living units for three or more families which may have joint services and must share a common wall and roof.

(26) **Eave** means the part of a roof that overhangs the wall of a building or for items like a covered porch the eave is that portion that overhangs the roof support post(s) and header.

(27) **Essential services** means services provided by public and private utilities necessary for the exercise of the principal use or service of the principal structure. These services include underground, surface or overhead gas, electrical, steam, water, sanitary sewerage, stormwater drainage and communications systems and accessories thereto such as poles, towers, wires, mains, drains, vaults, culverts, laterals, sewers, pipes, catch basins, water storage tanks, conduits, cables, fire alarm boxes, police call boxes, traffic signals, pumps, lift stations, and hydrants, but not including buildings and telecommunication towers.
(28) **Expansion** means an addition to an existing structure regardless of whether the addition is vertical or horizontal or both.

(29) **Facility** means any property or equipment of a public utility, as defined in Wis. Stats. §§ 196.01 (5), or a cooperative association organized under Wis. Stats. §§ 185 for the purpose of producing or furnishing heat, light, or power to its members only, that is used for the transmission, delivery, or furnishing of natural gas, heat, light, or power.

(30) **Family** means one or more persons living, sleeping, cooking and eating on the same premises as a single housekeeping unit.

(31) **Farming, general** means the production of crops or the raising of livestock or livestock products for commercial gain.

(32) **Floodplain** means the land that has been or may be hereafter covered by flood water during the regional flood. The floodplain includes the floodway and the flood fringe as those terms are defined in ch. NR 116, Wis. Adm. Code.

(33) **Floor Area** means the square foot measurement of all area within the outside of the exterior walls or windows of the structure.

(34) **Footprint** means the land area covered by a structure at ground level measured on a horizontal plane. The footprint of a building includes the horizontal plane bounded by the furthest exterior wall and eave if present, projected to natural grade. For structures without walls (decks, stairways, patios, carports) – a single horizontal plane bounded by the furthest portion of the structure projected to natural grade. Note: For the purposes of replacing or reconstructing a nonconforming building with walls, the footprint shall not be expanded by enclosing the area that is located within the horizontal plane from the exterior wall to the eaves projected to natural grade. This constitutes a lateral expansion.

(35) **Foundation** means the underlying base of a building or other structure, including, but not limited to, pillars, footings and concrete and masonry walls.

(36) **Generally accepted forestry management practices** (NR 1.25(2)(b), Wis. Adm. Code) means forestry management practices that promote sound management of a forest. Generally accepted forestry management practices include those practices contained in the most recent version of the department publication known as Wisconsin Forest Management Guidelines and identified as PUB FR-226. [http://dnr.wi.gov/topic/forestmanagement/documents/guidelines/foreword.pdf](http://dnr.wi.gov/topic/forestmanagement/documents/guidelines/foreword.pdf)

(37) **Guest cabin** means the same as dwelling. See definition of "Dwelling".

(38) **Habitable** means any room used for sleeping, living or dining purposes.

(39) **Home Occupation** means a gainful occupation conducted by a member of the family within his or her place of residence where the space used is incidental to residential use and no article is sold or offered for sale except such as is produced by such home occupation.

(40) **Hospital**. Unless otherwise specified, the term "Hospital" shall be deemed to include sanitarium, clinic, rest home, convalescent home and any other place for the diagnosis, treatment or other care of ailments, and shall be deemed to be limited to places for diagnosis, treatment or other care of human ailments.

(41) **Junkyard.** See "Salvage Yard".

(42) **Lot** means a parcel of land occupied or capable of being occupied by structures and/or uses consistent with the provisions of this chapter and the Burnett County Subdivision Ordinance. Adjoining lands of common ownership shall be considered a contiguous parcel even if divided by a public or private road, easement or navigable rivers or streams.

(43) **Lot area** means the horizontal projection of a parcel of land, exclusive of any portion of public right-of-way or any portion of a lot 33 feet or less in width. Measurements are to be made by standard surveying methods. This area shall be exclusive of lakebeds and easements. (This excludes blanket easements.)
Lot of record means any lot, the description of which is properly recorded with the Register of Deeds, which at the time of its recordation complied with all applicable laws, ordinances, and regulations.

Lot lines means any line dividing one lot from another.

Maintenance and repairs means any work done on a structure, including such activities as interior remodeling, painting, decorating, paneling, plumbing, insulation, and replacement of windows, doors, wiring, siding, roof and other nonstructural components; and repair of cracks in foundations, sidewalks, walkways, and the application of waterproof coatings to foundations.

Manufactured home means the same as dwelling. See definition of “Dwelling”.

Mitigation means balancing measures that are designed, implemented and function to restore natural functions and values that are otherwise lost through development and human activities.

Mobile home means any structure originally designed to be capable of transportation by motor vehicle upon public highway which does not meet standards established for manufactured housing construction and safety standards as administered by the U.S. Department of Housing and Urban Development (H.U.D.). This HUD code took effect on June 15, 1976. A mobile home is considered built before June 15, 1976, or not built to a uniform construction code.

Nonconforming structure means an existing lawful structure or building which is not in conformity with the provisions of the applicable zoning ordinance for the area which it occupies. If a nonconforming structure is not used for a period of 12 months, any future use of the structure shall conform to this chapter.

Nonconforming use means a lawful use that existed immediately prior to adoption of a zoning ordinance which prohibits or restricts said use. If a nonconforming use is discontinued for a period of 12 months, any future use shall conform to this chapter.

Nonprofit conservation organization means any charitable corporation, charitable association or charitable trust (such as a land trust), the purposes or powers of which include retaining or protecting the natural scenic or open-space values of real property, assuring the availability of real property for agricultural, forest, recreational or open-space use, protecting natural resources, maintaining or enhancing air or water quality, or preserving the historical, architectural, archaeological or cultural aspects of real property.

Non-riparian lot means a lot or parcel of land which does not abut navigable water.

Non-riparian owner means someone who owns land which does not abut navigable water.

Parcel. See "Lot".

Planned residential development means a housing development in a rural setting that is characterized by compact lots and common open space, and where the natural features of the land are maintained to the greatest extent possible. (Also known as a conservation subdivision).

Planned unit development means a zoning district which permits smaller non-riparian lots and preserves open space preferably on the shoreland in perpetuity.

POWTS means a private onsite wastewater treatment system as defined in SPS 381 Wis. Admin. Code.

Previously developed means a lot or parcel that was developed with a structure legally placed upon it.

Principal structure means a building or structure in which the principal use of the lot on which it is located is conducted.

Quarry includes, but is not limited to; sand, gravel and marl pits.

Reconstruction means replacement of all, or substantially all (50 percent or more) of the components of a structure or to the point when reconstruction of a principal structure will require the construction to be
done in accordance with the Uniform Dwelling Code, SPS 320-325 Wis. Admin. Code, or the Commercial Building Code, SPS 361 Wis. Admin. Code.

(63) **Regional flood** means a flood determined to be representative of large floods known to have occurred in Wisconsin. A regional flood is a flood with a one percent chance of being equaled or exceeded in any given year.

(64) **Renovation of a principle structure** means the process of improving a structure by alteration, refurbishment and/or restoration, including the replacement of less than 50 percent of the structural members, but not to the point of requiring compliance as a new structure under the Uniform Dwelling Code, SPS 320-325 Wis. Admin. Code, or the Commercial Building Code, SPS 361 Wis. Admin. Code.

(65) **Routine maintenance of vegetation** means normally accepted horticultural practices that do not result in the loss of any layer of existing vegetation and do not require earth disturbance.

(66) **Salvage yard** means a lot, land or structure, or part thereof, used for the collecting, storage or sale of waste paper, rags, scrap metal or discarded material; or for the collecting, dismantling, storage or salvaging of machinery or vehicles not in running condition or for the sale of parts thereof.

(67) **Salvageable material** means discarded material no longer of value as intended, but which is stored or retained for salvage, sale or future reuse.

(68) **Setback, front** means an open, unoccupied space on the same lot with the building between the front line of the building and the front line of the lot and extending the full width of the lot. Front is considered the side for which the site address of the lot is determined from and which is used to access the parcel. This access must be maintained and meet the driveway requirements of this chapter.

(69) **Setback, rear** means an open, unoccupied space on the same lot with the building between the rear line of the building and the rear line of the lot and extending the full width of the lot. Rear is considered the side opposite of the front lot line, road or driveway for which the site address of the lot is determined from and which is used to access the parcel. This access must be maintained and meet the driveway requirements of this chapter.

(70) **Setback, side** means an open, unoccupied space on the same lot with the building situated between the building and the side line of the lot and extending from the front yard to the rear yard.

(71) **Sign** means any structure or natural object or part thereof or device attached thereto or printed or represented thereon which is intended to attract attention to any object, product, place, activity, person, institution, organization, or business, or which shall display or include any letter, word, banner, flag, pennant, insignia, device, or representation used as or which is in the nature of an announcement, direction, or advertisement.

(72) **Special exception** see definition of “Conditional use”.

(73) **Structure** means a principal structure or any accessory structure including but not limited to a garage, shed, sidewalk, walkway, patio, deck, retaining wall, porch or fire pit, either permanently or temporarily attached to, placed upon, or set into the ground, lakebed or streambed or upon another structure.

(74) **Structural alteration** means the replacement of or alteration of one or more of the structural components of any structure.

(75) **Structural component** means any part of the framework of a building or other structure. A structural component may be non-load bearing, such as the gable end of a one-story house. Wall coverings, such as siding on the exterior or drywall on the interior, are not included in the definition of structural component.

  - The structural components of a building’s exterior walls include the vertical studs, top and bottom plates, sheathing and window and door sills and headers.
  - The structural components of a building’s roof include the ridge board, rafters, rafter ties, or roof trusses, and roof sheathing.
• The structural components of a building's floors and ceilings include girder(s), joist, bridging, subfloor(s), and posts.

• The structural components of a building's foundation include footings, foundation walls and concrete slabs.

(76) Structure height see Chapter 45 of the Burnett County ordinance for how this is determined.

(77) Substandard lots means a legally created lot or parcel that met the minimum area and minimum width requirements when created but does not meet current requirements for a new lot.

(78) Unnecessary hardship means that circumstance where special conditions, which were not self-created, affect a particular property and make strict conformity with restrictions governing area, setbacks, frontage, height, or density unnecessarily burdensome or unreasonable in light of the purposes of this ordinance.

(79) Use means the specific purpose for which land or a building is designed, arranged, intended, or for which it is or may be occupied or maintained. The term "permitted use" or its equivalent shall not be deemed to include any nonconforming use.

(80) Variance means an authorization granted by the board of adjustment for land use variances or the land use and information committee for subdivision variances to construct, alter or use a building or structure, or reconfigure a parcel in a manner that deviates from the dimensional standards of this ordinance.

(81) Wetlands means those areas where water is at, near, or above the land surface long enough to be capable of supporting aquatic or hydrophytic vegetation and which have soils indicative of wet conditions.

(Land Use Pamphlet, § 2.1; Res. No. 2013-10, 4-16-2013)

Sec. 30-5. - Adoption of comprehensive plan.

The county board does, by the enactment of Ordinance No. 2010-03, formally adopt the two documents composing the “Burnett County Year 2030 Comprehensive Plan” (including Volume 2: Plan Recommendations Report, and Volume 1: Inventory and Trends Report) pursuant to Wis. Stats. § 66.1001(4)(c).

Sec. 30-6. - Adoption of farmland preservation plan.

The county board does, by enactment of Ordinance No. 2016-28, formally adopt the farmland preservation plan as part of the “Burnett County Year 2030 Comprehensive Plan” (including Volume 2: Plan Recommendations Report, and Volume 1: Inventory and Trends Report) pursuant to Wis. Stats. § 66.1001(4)(c).

(Ord. No. 2010-03, § 5, 3-18-2010; Res. No. 2016-28, 9-22-2016)

Secs. 30-7—30-26. - Reserved.

ARTICLE II. - ZONING DISTRICTS

DIVISION 1. - GENERALLY

Sec. 30-27. - Establishment of districts.

For the purposes of this article, the unincorporated areas of the county are hereby divided into the following types of districts:
<table>
<thead>
<tr>
<th></th>
<th>Zoning Districts</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>RR-1 Residential Recreation District</td>
</tr>
<tr>
<td>2</td>
<td>RR-2 Residential Recreation District</td>

</tr>
</tbody>
</table>

1. (See permitted district uses and conditional uses in section 30-83 et seq.)

2. (Land Use Pamphlet, § 3.1)

3. Sec. 30-28. - Zoning map and district boundaries.

4. For purpose of this chapter, the county, outside the incorporated villages and cities, is hereby divided into the zoning districts identified and described in section 30-27. The boundaries of districts are established as shown upon the maps designated as the "Zoning Map of Burnett County, Wisconsin," and the "Wisconsin Wetlands Inventory Maps" for the county as depicted on the Department of Natural
Resources Surface Water Data Viewer. The wetland maps can be viewed at http://dnrmaps.wi.gov/SL/Viewer.html?Viewer=SWDV&runWorkflow=Wetland. These maps are hereby adopted and made a part of this chapter. All notations, references and other information shown upon the zoning and wetland maps shall be as much a part of this chapter as if the matter and things set forth by said maps were fully described herein. The zoning maps are on display in the office of the zoning administrator.

(Land Use Pamphlet, § 3.2)

Secs. 30-29—30-82. - Reserved.

DIVISION 3. - RR-1, RR-2 and RR-3 RESIDENTIAL RECREATION DISTRICTS

Sec. 30-83. - Purpose.

(a) The RR-1 district is intended to provide for year around residential development and essential recreation-oriented services in areas of high recreational value where soil conditions and other physical features will support such development without depleting or destroying natural resources. The minimum average lot width is 150 feet with a 30,000 square foot minimum area.

(b) The RR-2 district is intended to provide medium size lots for residential-recreational development as a means of preserving estate living and allowing lot size sufficient enough for recreational value. The minimum average lot width is 200 feet with a minimum lot area of 1½ acres.

(c) The RR-3 district is intended to provide for large size lots for residential-recreational development as a means to preserve the space characteristics of country living. The minimum average lot width is 300 feet with a minimum lot area of five acres.

(Land Use Pamphlet, § 3.3(2))

Sec. 30-84. - Permitted uses.

The following are the permitted uses in the RR-1, RR-2 and RR-3 Residential-Recreation Districts:

(1) One single-family dwelling.

(2) Private garages and carports.

(3) Horticulture and gardening.

(4) Essential services and utilities to serve the principal permitted use.

(5) Customary accessory uses provided such uses are clearly incidental to the principal permitted use.

(6) Forest management programs.

(7) Private residence for recreational rentals requiring state licensing under Wis. Admin. Code ch. ATCP 72, subject to county licensing requirements as listed in 30-455.

(Land Use Pamphlet, § 3.3(2)(a))

Sec. 30-85. - Conditional permit.

The following are the uses authorized by conditional permit in RR-1, RR-2 and RR-3 Residential-Recreation Districts:
1 (1) Manufactured home parks and campgrounds subject to the provisions of article V of this chapter.

2 (2) Telephone and power transmission towers, poles and lines, substations, relay and repeater stations, equipment housing and other necessary appurtenant equipment and structures. (See article VI of this chapter for tower communication facilities.)

3 (3) Recreational service oriented uses such as resorts and motels, restaurants and cocktail lounges, marinas, sport shops and bait sales, and other recreational services, which in the opinion of the land use and information committee are of the same general character or clearly incidental to a permitted use, or use authorized by conditional permit.

4 (4) Livestock or other agricultural practices, subject to conditions set by the land use and information committee.

5 (5) Mini-storage rental buildings or storage rental buildings for storage of personal property. Allowed by conditional permit in the RR-2 and RR-3 districts only. Such buildings are considered accessory structures.

6 (6) Two-family dwelling units also known as duplexes. A two-family dwelling unit cannot be separate structures and must share a common wall and roof.

7 (7) Home occupations or professional offices provided no such use occupies more than 25 percent of the total floor area of the dwelling, not more than one nonresident person is employed on the premises, and such use will not include an operational activity that would create a nuisance to or be otherwise incompatible with the surrounding land uses. Expanded home occupations which may be carried on other than within the confines of the home and which may involve persons other than the resident family may be authorized where such activity will not be incompatible to the surrounding uses.

8 (8) Public and semi-public uses including but not limited to the following: public and private schools, churches, public parks and recreational areas, hospitals, rest homes and homes for the aged, fire and police stations, historic sites, except that sewage treatment and solid waste disposal facilities shall not be allowed.

9 (9) Operate an animal control facility, animal shelter, animal boarding facility, domesticated animal breeding facility or have more than 15 domesticated animals.

(Land Use Pamphlet, § 3.3(2)(b))

Secs. 30-86—30-113. - Reserved.

DIVISION 4. - A EXCLUSIVE AGRICULTURAL DISTRICT

Sec. 30-114. - Purpose.

This district is intended to preserve productive agricultural land for food and fiber production, preserve productive farms by preventing land use conflicts between incompatible uses and controlling public service costs, maintain a viable agricultural base to support agricultural processing and service industries, prevent conflicts between incompatible uses, reduce costs of providing services to scattered nonfarm uses, space and shape urban growth, implement the provisions of the county agricultural plan when adopted and periodically revised, to permit eligible landowners to receive tax credits under Wis. Stats. § 71.09(11).

(Land Use Pamphlet, § 3.3(5))

Sec. 30-115. - Lands included within this district.
This district is generally intended to apply to lands which are limited to exclusive agricultural use including: lands historically exhibiting good crop yields, land capable of such yields, lands which have been demonstrated to be productive for dairying, livestock raising and grazing, other lands which are integral parts of such farm operations, land used for the production of specialty crops such as cranberries, ginseng, mint, sod, fruits and vegetables, and lands which are capable of productive use through economically feasible improvements such as irrigation or drainage.

(Land Use Pamphlet, § 3.3(5))

Sec. 30-116. - Permitted uses.

The following are the permitted uses in the A Exclusive Agricultural District:

1. One single-family dwelling.
2. Manufactured homes:
   a. One manufactured home used for habitation that is not the primary place of residence shall be permitted as an accessory building on an operating farm, providing:
      1. A determination is made in writing by the land use and information committee, that one or more of the occupants of the manufactured home derives a substantial portion of their livelihood from the farm operation and/or substantially participates in the operations of the farm, and provided with proper skirting or a foundation.
      2. More than one manufactured home on the property may be permitted if needed for help in conjunction with the farm operation upon county board approval and a conditional permit from the land use and information committee.
   b. The temporary use of a manufactured home, not to exceed one year unless an extension is authorized in writing by the county board shall be permitted while a permanent dwelling is under construction, providing the manufactured home and the permanent dwelling are located on the same lot or parcel of land and providing a county sanitary permit has been obtained for the permanent dwelling and that an approved private sewage system is utilized by the temporary manufactured home.
3. Pole buildings, garages, and any other buildings necessary to the farm operation or permitted residential uses.
4. General farming, including dairying, livestock and poultry raising, nurseries, greenhouses, beekeeping, vegetable warehouses, seasonal sale of seed and fertilizer and other similar enterprises or uses, except fur farms and farms operated for the disposal or reduction of garbage, sewage, rubbish or offal; provided that no greenhouse or building for the housing of livestock or poultry shall be located within 100 feet of any boundary of a residential lot other than that of the owner or lessee of such greenhouse or building containing such livestock or poultry. Buildings housing animals, barnyards, or feedlots for less than 250 animals shall be at least 100 feet from any navigable water and shall be so located that manure will not drain into any navigable water.
5. One roadside stand per farm, of not more than 300 square feet, used solely for the sale of products more than 50 percent of which were produced on the premises provided sufficient off-street parking space for customers is furnished and all setbacks are met.
6. Forest and game management.
8. Maple syrup processing plant.
(9) Signs. Signs not to exceed 32 square feet used exclusively to advertise sale of agricultural products produced on the premises, signs giving the name of the farm owner, and rural directory signs.

(10) Public utility equipment such as telephone and electric power, transmission and distribution poles, towers and lines, including transformers. (See article VI of this chapter for tower communication facilities).

(11) Farm ponds.

(12) Logging shelters used for the purpose of temporarily storing logging equipment at the logging site or for the production of maple syrup.

(13) For purposes of farm consolidation, farm residences or structures that existed prior to December 31, 2013, may be separated from a larger farm parcel.

(14) And all other uses as allowed under Wis. Stats. §§ 91.01(2) and (19).

(Land Use Pamphlet, § 3.3(5)(a); Res. No. 2016-29, 9-22-2016)

Sec. 30-117. - Conditional uses.

The following are special uses permitted as defined in Wis. Stats. §§ 91.01(1)(b) and (d) when the location of the use has been approved and a conditional permit has been granted by the land use and information committee after a public hearing. Such approval shall be consistent with the general purposes and intent of this chapter and shall be based upon such evidence as may be presented at such public hearing. The land use and information committee, in passing upon applications for these conditional use permits, shall consider the following factors:

(1) The statement of purposes of this chapter and the A district.

(2) The need of the proposed use for a location in an agricultural area.

(3) The availability of alternative locations.

(4) Compatibility with existing or permitted uses on adjacent lands.

(5) The productivity of the lands involved.

(6) The location of the proposed use so as to reduce to a minimum the amount of productive agricultural land converted.

(7) The need for public services created by the proposed use.

(8) The availability of adequate public services and the ability of affected local units of government to provide them without an unreasonable burden.

(9) The effect of the proposed use on water or air pollution, soil erosion and rare or irreplaceable natural resources.

(Land Use Pamphlet, § 3.3(5)(b); Res. No. 2016-29, 9-22-2016)

Sec. 30-118. - Conditional permits.

The following are the uses authorized by conditional permit in the A agricultural district:

(1) Single-family dwellings, in addition to permitted residences in subsection 30-116(1), providing one or more of the occupants is a parent or child of the operator of the farm, or when the dwelling is to be the retirement home of the present farm operator. Or as allowed under Wis. Stats. § 91.46(2).

(2) Canneries.
(3) Cheese factories.
(4) Governmental concrete or blacktop batching plant (temporary only) as per Wis. Stats. § 91.46(5).
(5) Condenseries.
(6) Commercial feedlots and buildings housing 250 or more animals.
(7) Creameries.
(8) Facilities used for the centralized bulk collection, storage and distribution of agricultural products to wholesale and retail markets.
(9) Facilities used to provide veterinarian services for livestock.
(10) Facilities used in processing of agricultural products.
(11) Fish hatchery, commercial. As defined in Wis. Stats. § 91.01(1).
(12) Fur farms when located not less than 1,000 feet from any residential building other than that of the owner of the premises, his agent or employee.
(13) Public utility substations, power plants, relay stations and microwave receivers and transmitters, semi-public and private utility towers, receivers, transmitters and other similar necessary appurtenant facilities (see article VI of this chapter for tower communication facilities) as per Wis. Stats. § 91.46(5).
(14) Airstrips when they are agriculture-related or governmental as per Wis. Stats. § 91.46(5).
(15) Sawmills, when located 500 feet minimum distance from any residence other than that of the owner.
(16) Mineral extraction for governmental and agricultural use only with an approved reclamation plan as per Wis. Stats. § 91.46(6).
(17) Home occupations. When established in the agricultural zone district, the home occupation office shall be incidental to the primary use as an agricultural or residential use. No more than 25 percent of the floor area of a dwelling unit shall be occupied by such a use. The home occupation may be in the home or an outbuilding. There shall be no outside storage of goods, nor any additions exclusively for this use. Only one lighted nameplate not exceeding two square feet in area is allowed.

(Land Use Pamphlet, § 3.3(5)(b); Res. No. 2016-29, 9-22-2016)
Sec. 30-119. - Conditions attached to conditional permits.

Upon a consideration of information supplied at the public hearing and a review of the standards contained in section 30-117, the following conditions may be attached to the granting of a conditional use permit: increased setbacks and yards; specifications for water supply, liquid waste, and solid waste disposal facilities; landscaping and planting screen, sureties, operational controls and time of operation; air pollution controls; erosion prevention measures; location of the use; and similar requirements found necessary to fulfill the purpose and intent of this division. Violation of these conditions shall constitute a violation of this chapter as provided in section 30-659.

(Land Use Pamphlet, § 3.3(5)(c); Res. No. 2016-29, 9-22-2016)
Sec. 30-120. - Height, yards, area and access requirements.
(a) Lot area.
(1) The minimum lot size to establish a residence farm operation is 35 contiguous acres, except as provided in subsections (a)(2) and (a)(3) of this section.

(2) The minimum lot size shall be one acre and the maximum shall be five acres to establish a separate parcel for an additional residence for parents or children of the farm operator, or for persons earning a substantial part of their livelihood from the farm operation.

(3) Where an additional residence for persons specified in subsection (a)(2) of this section is located on a farm without creating a separate parcel, the residence shall be at least 100 feet from other residences.

a. For purposes of farm consolidation, farm residences or structures that existed prior to December 31, 2013, may be separated from a larger farm parcel.

b. Lots or parcels having less than 35 acres but not less than one acre, that legally existed prior to December 31, 2013, that are not a part of and contiguous to a larger farm unit, or which have been granted a variance pursuant to section 30-698 et seq. by the board of adjustment, may be utilized as residential sites and structures may be rebuilt in the event of damage or destruction without the need for a variance provided that a building permit is obtained, and all minimum setback requirements and the terms of the county private sewage system ordinance codified in chapter 70, article II, are met.

(b) Front yards. There shall be a front yard provided between each building and front property lines as required in article III, division 2 of this chapter.

(c) Side yards. There shall be a side yard provided each building and the property line of no less than 10 feet.

(d) Rear yard. The minimum depth of any rear yard shall be 40 feet.

(e) Floor area. Buildings used in whole or in part for residential purposes which are hereafter erected, moved or structurally altered shall have a minimum floor area of 500 square feet.

(f) Access. Access shall be provided as required in article III, division 3 of this chapter.

(Land Use Pamphlet, § 3.3(5)(d); Res. No. 2016-29, 9-22-2016)

Sec. 30-121. - Standards for rezoning.

(a) The state department of agriculture, trade and consumer protection shall be mailed a copy of the notice of a public hearing on a petition for a rezone and following the hearing a copy of the findings upon which the decision to deny or grant the petition was based.

(b) Decision on petitions for rezoning areas zoned for exclusive agricultural use shall be based on findings that consider the following:

(1) Adequate public facilities to serve the development are present or will be provided.

(2) Provisions of these facilities will not be an unreasonable burden to local government.

(3) The land is suitable for development.

(4) Development will not cause unreasonable air or water pollution, soil erosion or adverse effects on rare or irreplaceable natural areas.

(5) The potential for conflict with remaining agricultural uses in the area.

(6) The need of the proposed development location in an agricultural area.

(7) The availability of alternative locations.

(8) The productivity of the agricultural lands involved.
(9) The location of the proposed development to minimize the amount of agricultural land converted.

(10) And all other considerations as per Wis. Stats. §§ 91.48(1), (2) and (3).

(Land Use Pamphlet, § 3.3(5)(e); Res. No. 2016-29, 9-22-2016)

Secs. 30-122—30-140. - Reserved.

DIVISION 5. - A-1 AGRICULTURAL TRANSITION DISTRICT

Sec. 30-141. - Purpose.

This district is intended to provide for the orderly transition of agricultural land to other uses in areas planned for eventual urban expansion; defer urban development until the appropriate local government bodies determine that adequate public services and facilities can be provided at a reasonable cost; ensure that urban development is compatible with local land use plans and policies; provide periodic review to determine whether all or part of the lands should be transferred to another zoning district. Such review shall occur:

(1) Upon completion or revision of the county agricultural preservation plan or municipal land use plan which affects lands in the district; or

(2) Upon extension of public services such as sewer and water, necessary to serve urban development.

(Land Use Pamphlet, § 3.3(6))

Sec. 30-142. - Lands included within this district.

This district is generally intended to apply to lands located adjacent to incorporated municipalities or urbanized areas where such lands are predominantly in agricultural or related open space use but where conversion to nonagricultural use is expected to occur in the foreseeable future. Lands indicated as transition areas in the agricultural plan and similar lands are to be included.

(Land Use Pamphlet, § 3.3(6))

Sec. 30-143. - Permitted uses.

The following are the permitted uses in the A-1 Agricultural-Transition District: Same as section 30-116 A Exclusive Agricultural District.

(Land Use Pamphlet, § 3.3(6)(a))

Sec. 30-144. - Conditional uses.

The following are the uses authorized by conditional permit in the A-1 Agricultural-Transition District: Same as sections 30-117, 30-118 and 30-119 A Exclusive Agricultural District.

(Land Use Pamphlet, § 3.3(6)(b))

Sec. 30-145. - Lot size, height, yards and access.
The following are the minimum lot size, height, yards and access in the A-1 Agricultural-Transition District: Same as section 30-120 A Exclusive Agricultural District.

(Land Use Pamphlet, § 3.3(6)(c))

Sec. 30-146. - Rezoning.

The following are the standards for rezoning in the A-1 Agricultural-Transition District: Same as section 30-121 A Exclusive Agricultural District.

(Land Use Pamphlet, § 3.3(6)(d))

Secs. 30-147—30-169. - Reserved.

DIVISION 6. - A-2 AGRICULTURAL RESIDENTIAL DISTRICT

Sec. 30-170. - Purpose.

This district is intended to primarily provide for the continuation of general farming and related activities in areas currently being used for such development and to additionally provide for limited residential development.

(Land Use Pamphlet, § 3.3(7))

Sec. 30-171. - Permitted uses.

The following are the permitted uses in the A-2 Agricultural-Residential District:

1. A one-family dwelling.
2. All agricultural land uses, buildings and activities, including the growing of field crops, dairying, livestock-raising, poultry farming, hog-raising, and so on.
3. One roadside stand per farm, of not more than 300 square feet, used solely for the sale of products more than 50 percent of which were produced on the premises provided sufficient off-street parking space for customers is furnished and all setbacks are met.
4. Cemeteries and mausoleums.
5. Essential services and utilities intended to serve a permitted principal use on the premises.
6. Customary accessory uses provided such uses are clearly incidental to a principal permitted use.
7. A two-family dwelling provided the lot area and setback requirements of this district are met.
8. Forest management programs.
9. Private residence for recreational rentals requiring state licensing under Wis. Admin. Code ch. ATCP 72, subject to county licensing requirements as listed in 30-455.

(Land Use Pamphlet, § 3.3(7)(a))

Sec. 30-172. - Conditional permit.
The following are the uses authorized by conditional permit in the A-2 Agricultural-Residential District:

1. Manufactured home parks and campgrounds subject to the provisions of article V of this chapter.
2. Vacation farms and other farm-oriented recreational uses such as riding stables, game farms and fishing ponds intended and used for commercial use.
3. Agricultural processing industries, warehouses, slaughterhouses, rendering and fertilizer plants.
4. Public and semi-public uses including but not limited to the following: public and private schools, churches, public parks and recreation areas, hospitals, rest homes and homes for the aged, fire and police stations, historic sites, except that sewage disposal plants and garbage incinerators shall not be permitted.
5. Telephone and power transmission towers, poles and lines, substations, relay and repeater stations, equipment housing and other necessary appurtenant equipment and structures. (See article VI of this chapter for tower communication facilities).
6. Quarrying, mining, and processing of products from these activities, subject to the provisions of article V of this chapter.
7. Airports.
8. Home occupations or professional offices provided no such uses occupies more than 25 percent of the total floor area of the dwelling, not more than one nonresident person is employed on the premises, and such use will not include an operational activity that would create a nuisance or be otherwise incompatible with the surrounding land uses. Expanded home occupations which may be carried on other than within the confines of the home and which may involve persons other than the resident family may be authorized where such activity will not be incompatible with the surrounding land uses.
9. Mini-storage rental buildings or storage rental buildings for storage of personal property. Such buildings are considered accessory structures.
10. Recreational/tourism-oriented uses such as resorts, sport shops, bait sales, gift/novelty shops, agricultural production, retail and other recreational/tourism services/activities, which in the opinion of the land use and information committee are of the same general character or clearly incidental to a permitted use, or use authorized by conditional permit.
11. Winery for manufacturing and warehousing of wine and spirits with associated retail and wholesale sales. Wine theme-related retail shops, restaurant, lounge, and event facilities as approved by conditional permit.
12. Operate an animal control facility, animal shelter, animal boarding facility, domesticated animal breeding facility or have more than 15 dogs.

(Land Use Pamphlet, § 3.3(7)(b))

Secs. 30-173—30-175. - Reserved.

DIVISION 6.5. - A-3 AGRICULTURAL RESIDENTIAL DISTRICT[2]

Footnotes:

--- (2) ---
Editor's note—Ord. No. 2016-29, adopted Sept. 22, 2016, added provisions designated as Div. 6, §§ 30-170—30-175. Inasmuch as there were already provisions so designated, the provisions have been redesignated as Div. 6.5, §§ 30-176—30-181, at the discretion of the editor.

Sec. 30-176. - Purpose.

This district is intended to primarily provide for the continuation of general farming and related activities in areas currently being used for such development and to additionally provide for limited residential development.

(Res. No. 2016-29, 9-22-2016)

Sec. 30-177. - Permitted uses.

The following are the permitted uses in the A-3 Agricultural-Residential District:

(1) A one-family or two-family farm residence and a single additional manufactured home or dwelling but only when occupied by owners, members of their immediate families, and/or persons engaged in farming activities on the premises, as defined in Wis. Stats. §§ 91.01(19)(a) and (b).

(2) All agricultural land uses, buildings and activities, including the growing of field crops, truck crops, dairying, livestock-raising, poultry farming, hog-raising, etc., as provided in Wis. Stats. § 91.01(2).

(3) One roadside stand per farm, of not more than 300 square feet, used solely for the sale of products more than 50 percent of which were produced on the premises provided sufficient off-street parking space for customers is furnished and all setbacks are met.

(4) Essential services and utilities intended to serve a permitted principal use on the premises, as per Wis. Stats. § 91.44(1)(F).

(5) Customary accessory uses provided such uses are clearly incidental to a principal permitted use, and qualify under Wis. Stats. § 91.01(1).

(6) Forest management programs, as provided in Wis. Stats. § 91.01(2).

(Res. No. 2016-29, 9-22-2016)

Sec. 30-178. - Conditional permit.

The following are the uses authorized by conditional permit in the A-3 Agricultural-Residential District:

(1) Vacation farms and other farm-oriented recreational uses such as riding stables, game farms and fishing ponds intended and used for commercial use, as defined in Wis. Stats. § 91.01(1).

(2) Agricultural processing industries, warehouses, slaughterhouses, rendering and fertilizer plants, as defined in Wis. Stats. § 91.01(3).

(3) Public and semi-public uses including, but not limited to, the following: public and private schools, churches, public parks and recreation areas, hospitals, rest homes and homes for the aged, fire and police stations, historic sites, except that sewage disposal plants and garbage incinerators shall not be permitted, as per Wis. Stats. § 91.46(5).

(4) Telephone and power transmission towers, poles and lines, substations, relay and repeater stations, equipment housing and other necessary appurtenant equipment and structures (see article VI of this chapter for tower communication facilities), as per Wis. Stats. § 91.46(4).
(5) Quarrying, mining, and processing of products from these activities, subject to the provisions of article V of this chapter, and the provisions of Wis. Stats. § 91.46(6).

(6) Airports, as per Wis. Stats. §§ 91.46(4), (5) and 91.01(1).

(7) Home occupations or professional services provided no such use occupies more than 25 percent of the total floor area of the farm residence or within an accessory building as defined in Wis. Stats. § 91.01(1), the business activity is conducted by the owner or operator of the farm, and such use will not include an operational activity that would create a nuisance or otherwise impair or limit the current or future agricultural use of the farm or other protected farmland.

(8) Mini-storage rental buildings for storage of personal property, as per Wis. Stats. § 91.01(1). Such buildings are considered accessory structures.

(9) Recreational/tourism-oriented uses such as resorts, sport shops, bait sales, gift/novelty shops, agricultural production, retail and other recreational/tourism services/activities, which in the opinion of the land use and information committee are of the same general character or clearly incidental to a permitted use, or use authorized by conditional permit, as per Wis. Stats. § 91.01(1).

(10) Winery for manufacturing and warehousing of wine and spirits with associated retail and wholesale sales. Wine theme-related retail shops, restaurant, lounge, and event facilities as approved by conditional permit, as per Wis. Stats. § 91.01(1).

(11) One- or two-family dwellings which are to be used as non-farm residences, subject to the lot area and setback requirements of this district and Wis. Stats. § 91.46(2).

(Res. No. 2016-29, 9-22-2016)

Sec. 30-179. - Conditions attached to conditional permits.

Upon a consideration of information supplied at the public hearing and a review of the standards contained in section 30-117, the following conditions may be attached to the granting of a conditional use permit: increased setbacks and yards; specifications for water supply, liquid waste, and solid waste disposal facilities; landscaping and planting screen, sureties, operational controls and time of operation; air pollution controls; erosion prevention measures; location of the use; and similar requirements found necessary to fulfill the purpose and intent of this division. Violation of these conditions shall constitute a violation of this chapter as provided in section 30-659.

(Res. No. 2016-29, 9-22-2016)

Sec. 30-180. - Height, yards, area and access requirements.

(a) Lot area.

(1) The minimum lot size to establish a residence farm operation is 35 contiguous acres, except as provided in subsections (a)(2) and (a)(3) of this section.

(2) The minimum lot size shall be one acre and the maximum shall be five acres to establish a separate parcel for an additional residence for parents or children of the farm operator, or for persons earning a substantial part of their livelihood from the farm operation.

(3) Where an additional residence for persons specified in subsection (a)(2) of this section is located on a farm without creating a separate parcel, the residence shall be at least 100 feet from other residences.

   a. For purposes of farm consolidation, farm residences or structures that existed prior to December 31, 2013, may be separated from a larger farm parcel.
b. Lots of parcels having less than 35 acres but not less than one acre, that legally existed prior to December 31, 2013, that are not a part of and contiguous to a larger farm unit, or which have been granted a variance pursuant to section 30-698 et seq. by the board of adjustment, may be utilized as residential sites and structures may be rebuilt in the event of damage or destruction without the need for a variance provided that a building permit is obtained, and all minimum setback requirements and the terms of the county private sewage system ordinance codified in chapter 70, article II, are met.

(b) **Front yards.** There shall be a front yard provided between each building and front property lines as required in article III, division 2 of this chapter.

(c) **Side yards.** There shall be a side yard provided [between] each building and the property line of no less than 10 feet.

(d) **Rear yard.** The minimum depth of any rear yard shall be 40 feet.

(e) **Floor area.** Buildings used in whole or in part for residential purposes which are hereafter erected, moved or structurally altered shall have a minimum floor area of 500 square feet.

(f) **Access.** Access shall be provided as required in article III, division 3 of this chapter.

(Res. No. 2016-29, 9-22-2016)

Sec. 30-181. - Standards for rezoning.

(a) The state department of agriculture, trade and consumer protection shall be mailed a copy of the notice of a public hearing on a petition for a rezone and following the hearing a copy of the findings upon which the decision to deny or grant the petition was based.

(b) Decision on petitions for rezoning areas zoned for exclusive agricultural use shall be based on findings that consider the following:

1. Adequate public facilities to serve the development are present or will be provided.
2. Provisions of these facilities will not be an unreasonable burden to local government.
3. The land is suitable for development.
4. Development will not cause unreasonable air or water pollution, soil erosion or adverse effects on rare or irreplaceable natural areas.
5. The potential for conflict with remaining agricultural uses in the area.
6. The need of the proposed development location in an agricultural area.
7. The availability of alternative locations.
8. The productivity of the agricultural lands involved.
9. The location of the proposed development to minimize the amount of agricultural land converted.
10. And all other considerations as per Wis. Stats. §§ 91.48(1), (2) and (3).

(Res. No. 2016-29, 9-22-2016)

Secs. 30-182—30-197. - Reserved.

DIVISION 7. - A-4 AGRICULTURAL FORESTRY RESIDENTIAL DISTRICT

Sec. 30-198. - Purpose.
The purpose of the A-4 district is to allow limited rural residential development on lands in predominantly agriculture or forestry. Residential lots are limited to minimize impacts associated with agricultural, forestry and open space development. Residents of this district may experience conditions associated with farming or forestry that are not necessarily compatible with residential use.

(Land Use Pamphlet, § 3.3(8))

Sec. 30-199. - Permitted uses.

The following are the permitted uses in the A-4 district:

(1) One single-family dwelling, as defined in Wis. Stats. § 91.01(19).

(2) All agricultural land uses, buildings and activities, including the growing of field crops, truck crops, dairying, livestock raising, poultry farming, as defined in Wis. Stats. § 91.01(2).

(3) One roadside stand per farm, of not more than 300 square feet, used solely for the sale of products more than 50 percent of which were produced on the premises provided sufficient off-street parking space for customers is furnished and all setbacks are met.

(4) Cemeteries limited to family plots only.

(5) Essential services and utilities intended to serve a permitted principal use on the premises.

(6) Customary accessory uses provided such uses are clearly incidental to a principal permitted use.

(7) Forest management programs.

(Land Use Pamphlet, § 3.3(8)(a); Res. No. 2016-29, 9-22-2016)

Sec. 30-200. - Conditional permit.

The following are the uses authorized by conditional permit in the A-4 district:

(1) Vacation farms and other farm-oriented recreational uses such as riding stables, game farms and fishing ponds intended and used for commercial or private residential use, as defined in Wis. Stats. § 91.01(1).

(2) Slaughterhouses, rendering and fertilizer plants.

(3) Public and semi-public uses, as defined in Wis. Stats. § 91.46(5), including, but not limited to, the following: public and private schools, churches, public parks and recreation areas, hospitals, rest homes and homes for the aged, fire and police stations, historic sites, except that sewage disposal plants and garbage incinerators shall not be permitted, as defined in Wis. Stats. § 91.46(5).

(4) Telephone and power transmission towers, poles and lines, substations, relay and repeater stations, equipment housing and other necessary appurtenant equipment and structures (see article VI of this chapter for tower communication facilities) as defined in Wis. Stats. § 91.46(4).

(5) Quarrying, mining, and processing of products from these activities, subject to the provisions of article V of this chapter as defined in Wis. Stats. § 91.46(6).

(6) Airports, as defined in Wis. Stats. §§ 91.46(4), (5) and 91.01(1).

(7) Home occupations or professional offices provided no such use occupies more than 25 percent of the total floor area of the dwelling, not more than one nonresident person is employed on the premises, and such use will not include an operational activity that would create a nuisance to be otherwise incompatible with the surrounding land uses. Expanded home occupations which may be carried on other than within the confines of the home and which may involve persons
other than the resident family may be authorized where such activity will not be incompatible to
the surrounding land uses, as defined in Wis. Stats. §§ 91.01(b) and (d).

(Land Use Pamphlet, § 3.3(8)(b); Res. No. 2016-29, 9-22-2016)

Sec. 30-201. - Conditions attached to conditional permits.

Upon a consideration of information supplied at the public hearing and a review of the standards
contained in section 30-117, the following conditions may be attached to the granting of a conditional use
permit: increased setbacks and yards; specifications for water supply, liquid waste, and solid waste
disposal facilities; landscaping and planting screen, sureties, operational controls and time of operation;
air pollution controls; erosion prevention measures; location of the use; and similar requirements found
necessary to fulfill the purpose and intent of this division. Violation of these conditions shall constitute a
violation of this chapter as provided in section 30-659.

(Res. No. 2016-29, 9-22-2016)

Sec. 30-202. - Height, yards, area and access requirements.

(a) Lot area.

(1) The minimum lot size to establish a residence farm operation is 35 contiguous acres, except as
provided in subsections (a)(2) and (a)(3) of this section.

(2) The minimum lot size shall be one acre and the maximum shall be five acres to establish a
separate parcel for an additional residence for parents or children of the farm operator, or for
persons earning a substantial part of their livelihood from the farm operation.

(3) Where an additional residence for persons specified in subsection (a)(2) of this section is
located on a farm without creating a separate parcel, the residence shall be at least 100 feet
from other residences.

a. For purposes of farm consolidation, farm residences or structures that existed prior to
December 31, 2013, may be separated from a larger farm parcel.

b. Lots of parcels having less than 35 acres but not less than one acre, that legally existed
prior to December 31, 2013, that are not a part of and contiguous to a larger farm unit, or
which have been granted a variance pursuant to section 30-698 et seq. by the board of
adjustment, may be utilized as residential sites and structures may be rebuilt in the event
of damage or destruction without the need for a variance provided that a building permit is
obtained, and all minimum setback requirements and the terms of the county private
sewage system ordinance codified in chapter 70, article II, are met.

(b) Front yards. There shall be a front yard provided between each building and front property lines as
required in article III, division 2 of this chapter.

(c) Side yards. There shall be a side yard provided [between] each building and the property line of no
less than 10 feet.

(d) Rear yard. The minimum depth of any rear yard shall be 40 feet.

(e) Floor area. Buildings used in whole or in part for residential purposes which are hereafter erected,
moved or structurally altered shall have a minimum floor area of 500 square feet.

(f) Access. Access shall be provided as required in article III, division 3 of this chapter.

(Res. No. 2016-29, 9-22-2016)
Sec. 30-203. - Standards for rezoning.

(a) The state department of agriculture, trade and consumer protection shall be mailed a copy of the notice of a public hearing on a petition for a rezone and following the hearing a copy of the findings upon which the decision to deny or grant the petition was based.

(b) Decision on petitions for rezoning areas zoned for exclusive agricultural use shall be based on findings that consider the following:

(1) Adequate public facilities to serve the development are present or will be provided.

(2) Provisions of these facilities will not be an unreasonable burden to local government.

(3) The land is suitable for development.

(4) Development will not cause unreasonable air or water pollution, soil erosion or adverse effects on rare or irreplaceable natural areas.

(5) The potential for conflict with remaining agricultural uses in the area.

(6) The need of the proposed development location in an agricultural area.

(7) The availability of alternative locations.

(8) The productivity of the agricultural lands involved.

(9) The location of the proposed development to minimize the amount of agricultural land converted.

(10) And all other considerations as per Wis. Stats. §§ 91.48(1), (2) and (3).

(Res. No. 2016-29, 9-22-2016)

Secs. 30-204—30-223. - Reserved.

DIVISION 8. - C-1 COMMERCIAL DISTRICT

Sec. 30-224. - Purpose.

This district is intended to provide for the orderly and attractive grouping, at appropriate locations, of retail stores, shops, offices and similar commercial establishments.

(Land Use Pamphlet, § 3.3(9))

Sec. 30-225. - Permitted uses.

The following are the permitted uses in the C-1 Commercial District; facilities such as, but not limited to, the following:

(1) Retail stores and shops offering convenience goods and services.

(2) Business and professional offices and studios.

(3) Banks and savings and loan offices.

(4) Public and semi-public buildings and institutions.

(5) Commercial entertainment facilities; such as a dance hall, wedding venue or convention center.

(6) Laundromats.

(7) Restaurants.
Sec. 30-226. - Conditional uses.

The following are the uses authorized by conditional permit in the C-1 commercial district:

(1) Public and semi-public conditional uses as stated in the RR-1, RR-2 and RR-3 districts.
(2) New and used car sales establishments.
(3) Wholesaling establishments.
(4) Transportation terminals.
(5) Outdoor theaters.
(6) Miniature golf, go-karts and amusement parks.
(7) Telephone and power transmission towers, poles and lines, substations, relay and repeater equipment and structures. (See article VI of this chapter for tower communication facilities.)
(8) Manufactured home and camper sales establishments.
(9) Mini-storage rental buildings or storage rental buildings for storage of personal property. Such buildings are considered accessory structures.
(10) Any outdoor retail or commercial activity that is not listed under permitted or conditional uses and which in the opinion of the land use and information committee is of the same general
character of said permitted or conditional uses or clearly incidental to the districts uses (e.g.,
flea markets, outdoor retail, curio or souvenir business). Outdoor retail activities in conjunction
with an existing commercial business operated less than seven calendar days per year are
exempt.
(11) Light manufacturing/industrial (see article VII of this chapter).
(12) Operate an animal control facility, animal shelter, animal boarding facility, domesticated animal
breeding facility or have more than 15 dogs.

(Land Use Pamphlet, § 3.3(9)(b))

Secs. 30-227—30-245. - Reserved.

DIVISION 9. - I-1 INDUSTRIAL DISTRICT

Sec. 30-246. - Purpose.

This district is intended to provide for manufacturing and industrial operations which on the basis of
actual physical and operational characteristics would not be detrimental to surrounding areas by reason
of smoke, noise, dust, odor, traffic, physical appearance or similar factors relating to public health, welfare
and safety. Those industries requiring outdoor storage for raw materials and/or finished products may be
required to provide fence or screen in accordance with the provisions of article VII of this chapter.

(Land Use Pamphlet, § 3.3(10))

Sec. 30-247. - Permitted uses.

The following are the permitted uses in the I-1 Industrial District:

(1) Manufacturing, assembly, fabricating and processing plants and similar type industrial
operations consistent with the purposes of this district.

(2) General warehousing.

(3) Accessory uses clearly incidental to a permitted use.

(4) Essential services and utilities intended to serve a permitted principal use on the premises.

(Land Use Pamphlet, § 3.3(10)(a))

Editor's note—Any use determined to be objectionable by the land use and information
committee on the basis of pollution, noise, dust, smoke, vibration, odor, flashing lights, or danger
of explosion may be permitted only upon the issuance of a conditional use permit setting forth
dimensional and site requirements, performance standards, aesthetic controls, and pollution
standards for that particular use. See article VII of this chapter.

Sec. 30-248. - Conditional uses.

The following are the uses authorized by conditional permit in the I-1 Industrial District:

(1) Salvage yards subject to the provisions of article V of this chapter.

(2) Quarrying, mining and processing of products from these activities subject to the provisions of
article V of this chapter.
(3) Telephone, telegraph and power transmission towers, poles and lines including transformers, substations, relay and repeater stations, equipment housing and other necessary appurtenant equipment and structures. (See article VI of this chapter for telecommunication facilities.)

(4) Transfer stations used for garbage, recycling, rubbish or offal, subject to the applicable provisions of the Wisconsin Administrative Code and the provisions of article VIII of this chapter.

(Land Use Pamphlet, § 3.3(10)(b))

Secs. 30-249—30-274. - Reserved.

DIVISION 10. - F-1 FORESTRY DISTRICT

Sec. 30-275. - Purpose.

This district provides for the continuation of forest programs and related uses in those areas best suited for such activities. It is intended to encourage forest management programs and also to recognize the value of the forest as a recreational resource by permitting as a conditional use certain recreational activities which when adequately developed, are not incompatible to the forest.

(Land Use Pamphlet, § 3.3(11))

Sec. 30-276. - Permitted uses.

The following are the permitted uses in the F-1 Forestry District:

(1) Forest management programs.

(2) Harvesting of wild crops such as marsh hay, ferns, moss, berries, tree fruits and tree seeds.

(3) Multiple use recreational trails and wildlife refuges.

(4) One single-family dwelling.

(5) Horticulture and gardening.

(6) Essential services and utilities intended to serve a permitted principal use on the premises.

(7) Accessory uses clearly incidental to a permitted use.

(8) Private residence for recreational rentals requiring state licensing under Wis. Admin. Code ch. ATCP 72, subject to county licensing requirements as listed in 30-455.

(Land Use Pamphlet, § 3.3(11)(a))

Sec. 30-277. - Conditional uses.

The following are the uses authorized by conditional permit in the F-1 Forestry District:

(1) Public and private parks, playgrounds and winter sports area.

(2) Dams, plants for production of electric power and flowage areas.

(3) Campgrounds subject to the provisions of article V of this chapter.

(4) Forest-connected industries such as sawmills, debarking operations, chipping facilities and similar operations.
(5) Recreation and youth camps.
(6) Riding stables.
(7) Shooting ranges.
(8) Quarrying and mining operations subject to the provisions of article V of this chapter.
(9) Year around residences for caretakers of recreational areas and caretakers of plants used for production of electric power.
(10) Telephone and power transmission towers, poles and lines, substations, relay and repeater stations, equipment housing and other necessary appurtenant equipment and structures, radio and television stations and transmission towers, fire towers and microwave radio relay towers. (See article VI of this chapter for tower communication facilities.)
(11) Airports.
(12) Operate an animal control facility, animal shelter, animal boarding facility, domesticated animal breeding facility or have more than 15 dogs.

(Land Use Pamphlet, § 3.3(11)(b))

Secs. 30-278—30-302. - Reserved.
DIVISION 11. - W-1 RESOURCE CONSERVATION DISTRICT
Sec. 30-303. - Purpose.
This district is intended to be used to prevent the destruction of natural or manmade resources and to protect watercourses including the shorelands of navigable waters, and areas which are not adequately drained, or which are subject to periodic flooding, where developments would result in hazards to health or safety; would deplete or destroy resources; or be otherwise incompatible with the public welfare.

(Land Use Pamphlet, § 3.3(12))

Sec. 30-304. - Permitted uses.
The following are the permitted uses in the W-1 Resource Conservation District:
(1) Fish hatcheries and fish and wildlife ponds.
(2) Soil and water conservation programs.
(3) Forest management programs.
(4) Wildlife preserves.

(Land Use Pamphlet, § 3.3(12)(a))

Sec. 30-305. - Conditional uses.
(a) The following are the uses authorized by conditional permit in the W-1 Resource Conservation District:
(1) Drainage where such activity will not be in conflict with the stated purpose of this district.
(2) Public and private parks.
(3) Dams, plants for the production of electric power and flowage areas.
(4) Grazing where such activities will not be in conflict with the stated purposes of this district.

(5) Orchards.

(6) Telephone and power transmission towers, poles and lines, substations, relay and repeater stations, equipment housing and other necessary appurtenant equipment and structures, radio and television stations and transmission towers, fire towers, and microwave radio relay towers. (See article VI of this chapter for tower communication facilities.)

(7) Campgrounds subject to the provisions of article V of this chapter.

(8) Quarrying and mining operations subject to the provisions of article V of this chapter and when not in conflict with the stated purposes of this district.

(b) No use shall involve dumping or filling, or mineral, soil or peat removal or any other use that would disturb the natural fauna, flora, watercourses, water regimen, or topography.

(Land Use Pamphlet, § 3.3(12)(b))

Secs. 30-306—30-328. - Reserved.

(Land Use Pamphlet, § 3.3(13)(b))

Secs. 30-332—30-350. - Reserved.

DIVISION 13. - PUD PLANNED UNIT DEVELOPMENT DISTRICT

Sec. 30-351. - Purpose.

(a) The PUD district is intended to provide for large scale residential or residential-recreation development. This district shall have no definite boundaries until such are approved by the county board on the recommendation of the land use and information committee in accordance with procedures prescribed for zoning amendments by Wis. Stats. § 59.69. Plans for the proposed development shall be submitted in duplicate, and shall show the location, size and proposed use of all structures and land included in the areas involved.

(b) The plans may provide for a combination of single-family and multi-family development as well as related commercial uses, provided that the plans conform to section 30-352.

(c) The Planned Unit Development is intended to permit smaller non-riparian lots where the physical layout of the lots is so arranged as to better assure the control of pollution and preservation of ground cover than would be expected if the lots were developed with the normal lot sizes and setbacks and without special conditions placed upon the Planned Unit Development at the time of its approval. A condition of all Planned Residential Unit Development is the preservation of certain open space, preferably on the shoreland, in perpetuity.

(Land Use Pamphlet, § 3.3(14))

Sec. 30-352. - Minimum requirements.

The following are the minimum requirements in the PUD planned unit development district:

(1) A single area of at least five acres is involved.

(2) Each residential building and lot in the district will conform to the RR-1 district requirements, and each commercial building and lot will conform to the C-1 district requirements.
(3) Adequate streets and sidewalks as determined to serve the needs of the area involved will be provided.

(4) Adequate access to public streets and proper internal circulation will be provided.

(5) Adequate sewer and water facilities are possible and will be provided if deemed necessary by the land use and information committee. Each commercial or residential lot must include such physical features necessary as to provide for sewage and water facilities in accordance with the county sanitary code and SPS 383, Wis. Admin. Code.

(6) The development will constitute a reasonable extension of the living areas in the county and will be compatible with surrounding land uses.

(7) Erosion control shall be designed/planned to minimize pollution and to follow the standards outlined in article XII of chapter 45.

(8) The area proposed for home sites is located in a district that permits residential use.

(9) The project area may include lands in more than one zoning district.

(10) All structures must have minimum setbacks of 10 feet to side lot lines, 30 feet to front lot lines, 40 feet to rear lot lines and 40 feet to wetlands.

(11) Open space. At least 50% of the project area shall be undivided and restricted in perpetuity from further development. Open space shall be deed and plat restricted to nonstructural agricultural, forestry, recreational or environmental protection uses except that accessory structures essential to the open space uses may be approved. A private on-site wastewater treatment system may be located in such an area provided no suitable site is available on the lot served by the system. Open space shall be contiguous. In this section contiguous shall mean at least 33 feet in width. Any restriction placed on use of lands, which is required by this ordinance, or which was placed as a condition of approval of a planned residential development shall vest in the county the right to enforce the restriction against anyone who has or acquires an interest in the land subject to the restriction. If the open space is to be held in common by owners of lots in the development, a homeowner's association or similar legally constituted body shall be created to maintain it. Open space may be:

A. Dedicated to the public. Land dedicated to the public must be accepted by action of the governing body of the accepting unit of government.

B. Retained by the former owner, or held in individual ownership, while a nonprofit conservation organization or other qualified organization holds a conservation easement prescribing the acceptable uses for the common open space.

C. Held in common by the residents of the planned residential development.

D. Held as individual outlots by owners of the planned residential development.

E. Held by a nonprofit conservation organization acceptable to the county. The conveyance to the nonprofit conservation organization must contain appropriate provisions for reversion in the event that the organization becomes unwilling or unable to uphold the terms of the conveyance.

(12) Density. The number of platted home sites shall not exceed 125% of those which would have been possible if the same land were platted in accordance with the minimum lot sizes, setbacks, widths and water frontage provided by the applicable provisions of this chapter, chapter 10, chapter 22, chapter 45, chapter 58 and chapter 70 of the Burnett County Ordinances. This figure shall be determined by use of the development yield analysis provided in the application and approval process of the applicable chapters.

(13) Design guidelines for approval.

A. Roadways, lots and building envelopes shall be located in areas where they will have the least effect on forests, environmentally sensitive areas, crop land, pasture, meadow,
farm buildings and historic structures, and where they will retain or enhance the visual
character of the rural landscape. However, in resolving conflicts between these interests,
priority shall be given to protection of waterways and their buffers, steep slopes,
regulated floodplains and avoidance of a fragmented landscape.

B. All residential lots and dwellings shall be encouraged into clusters. Residential clusters
shall be located to minimize negative impacts on the natural, scenic and cultural
resources of the site, and conflicts between incompatible uses.

(14) Site development and land disturbing.

A. Existing natural drainage ways shall be retained to the greatest extent possible.
B. Existing natural vegetation shall be preserved in areas where disturbance outside the
building envelope is not essential.

(Land Use Pamphlet, § 3.3(14)(a))

Secs. 30-353—30-375. - Reserved.
Secs. 30-384—30-391. - Reserved.

DIVISION 15. - UVOD UNINCORPORATED VILLAGE OVERLAY DISTRICT

Sec. 30-392. - Purpose.

(a) The UVOD Unincorporated Village Overlay District is created to accommodate the land use patterns
of those established unincorporated villages where, in order to ensure development consistent with
the intent of this chapter, special provisions shall be applied.
(b) The UVOD Unincorporated Village Overlay District shall include all the area indicated on the official
county land use/zoning maps designated as UVOD Unincorporated Village Overlay District.

(Land Use Pamphlet, § 3.3(16))

Sec. 30-393. - Permitted uses.

The following are the permitted uses in the UVOD unincorporated village overlay district: Any use
permitted in the underlying district.

(Land Use Pamphlet, § 3.3(16)(a))

Sec. 30-394. - Conditional uses.

The following are the uses authorized by conditional permit in the UVOD Unincorporated Village
Overlay District: Any conditional use authorized in the underlying districts.

(Land Use Pamphlet, § 3.3(16)(b))

Secs. 30-395—30-405. - Reserved.

DIVISION 16. - AP AIRPORT DISTRICT

Sec. 30-406. - Purpose.
The AP Airport District is intended for municipal and private airports, providing service for passengers and/or cargo.

(Land Use Pamphlet, § 3.3(17))

Sec. 30-407. - Permitted uses.

The following are the permitted uses in the AP Airport District:
(1) Municipal or private airports.
(2) Public or private hangar.
(3) Terminals.
(4) Facilities for passengers, cargo, and supply or repair of airplanes and aviation related businesses.

(Land Use Pamphlet, § 3.3(17)(a))

Sec. 30-408. - Conditional uses.

The following are the uses authorized by conditional permit in the AP airport district:
(1) Commercial and light industrial uses compatible with the airport facility plan and permitted uses.
(2) Government facilities, structures, or buildings.

All uses are subject to the county airport ordinance and any/all federal and state regulations.

(Land Use Pamphlet, § 3.3(17)(b))

Secs. 30-409—30-412. - Reserved.

### Notes:

1. Unless specified elsewhere in this chapter or on the official zoning map the dimensional requirements of this schedule shall apply to the respective listed districts. A planned residential development may be approved by the land use and information committee as a conditional use in any zoning district that permits residential use, but not A and A-1 zoning districts. Requirements for the W-1 resource conservation and PUD planned unit development are contained on the official zoning maps.

2. Minimum for one-family dwellings: Add 5,000 square feet for each additional unit over one.

3. Plus any additional area required by Wisconsin Administrative Code.

4. Farm buildings are exempt from building height limit unless restricted in other sections or chapters. See section 30-658(d)(1) for the definition of farm buildings.

5. See section 30-443 et seq. for additional setback requirements.

6. Minimum lot size 40 acres (nominal ¼, ¼ section) with one-time additional split of a one to five acre parcel per 40 acres.

7. Shoreland areas and Airport District may have different height restrictions.

8. Density development allows for flexibility in the size and number of parcels to be created within a nominal ¼, ¼ of a section (40 acres), based on zoning district. The maximum development density credits shall be calculated by using the density development formula and rounding down to the nearest whole number. Development credits represent the total parcels into which the original zoned parcel may be divided, provided they meet all other applicable zoning and subdivision ordinances.
Development credits are assigned to the existing parcel and parcels created based on the density development formula. These credits will determine whether created parcels can be further divided under the density standard. Persons purchasing or proposing to develop parcels should contact the Burnett County Land Services Department to determine if development credits are available for the parcel. Density development is only allowed in the following districts: RR-3, A-2 and F-1.

Condominium-type development, per WI § 703, may be permitted by conditional permit using density development standards. The maximum density will be determined with the method used for standard development. Condominium development in the RR-1 zoning district may also be permitted using minimum standards of 30,000 ft² square feet of area; 150 foot average lot width.

Density Development Formula

Number of acres divided by density standard for district equals number of total development credits (rounded to nearest whole number).

For example: 40 acres divided by 5 ac (Density Standard for RR-3) equals 8 maximum development credits* for original parcel.

*(Preliminary survey required to demonstrate developable parcels exist)

<td>150*</td>
</tr>
</tbody>
</table>

* Riparian parcels must meet minimum average lot width per zoning district.

Below is an example of how density development would be applied.
A 24 acre parcel zoned RR-3

Step 1: The maximum development density shall be calculated by dividing the acres of a zoned parcel by the zoning district density standard and rounding down to the nearest whole number to determine the total development credits.

RR-3: 24 acres divided by 5 density standard = 4.8 or 4 development credits.

Step 2: Development credits represent the total parcels upon which the original zoned parcel may be divided and meeting all other applicable zoning requirements.

A total of 4 development credits are available for the 24 acre lot. As a result, 1 development credit is applied to the existing lot and 3 other lots could be created. All lots must be a minimum of 1 acre and at least 150 feet in width.

Step 3: The land owner of the 24 acre parcel could create one lot at a time or all 3 new lots at one time. Development credits will be tracked within the land services department.

(Land Use Pamphlet, § 3.4; Res. No. 2012-10, 4-17-2012; Res. No. 2014-10, 5-22-2014)

Secs. 30-414—30-419. - Reserved.

DIVISION 18. - PRD PLANNED RESIDENTIAL DEVELOPMENT

Sec. 30-420. - Purpose.

A PRD Planned Residential Development is intended to permit smaller lots where the physical layout of the lots is so arranged as to better control pollution, preserve ground cover and promote the objectives of this chapter than would be possible if normal development standards were applied. This may be accomplished by increasing shoreline setbacks and by clustering structures on one or more portions of the parcel. A condition of all planned residential developments is the preservation of open space in perpetuity, preferably along the shoreline, and, in nonshoreland areas, the maintenance of the natural features of the land to the greatest extent possible.
Sec. 30-421. - Requirements.

The land use and information committee may at its discretion, upon its own motion or upon petition, authorize a planned residential development as a conditional use application as provided under article VIII of this chapter. The committee may authorize a specific project upon finding after a public hearing that the following facts exist:

(1) **Location and area.** The area proposed for home sites is located in a district that permits residential use. Gross project area shall include total project area less any areas below the ordinary high-water mark of navigable waters and may include lands in more than one zoning district.

(2) **Pollution and erosion control.** The location and nature of the private on-site wastewater treatment systems, which will serve the home sites individually or collectively, is in compliance with the county sanitary code and Wis. Admin. Code ch. SPS 383.

(3) **Open space.** At least 50 percent of the project area shall be undivided and restricted in perpetuity from further development. Open space may be:
   a. Dedicated to the public.
   b. Retained by the former owner, or held in individual ownership, while a nonprofit conservation organization or other qualified organization holds a conservation easement prescribing the acceptable uses for the common open space.
   c. Held in common by the residents of the planned residential development.
   d. Held as individual outlots by owners of the planned residential development.
   e. Held by a nonprofit conservation organization acceptable to the county. The conveyance to the nonprofit conservation organization must contain appropriate provisions for reversion in the event that the organization becomes unwilling or unable to uphold the terms of the conveyance.

Sec. 30-422. - Dedication.

Land dedicated to the public must be accepted by action of the governing body of the accepting unit of government. If the open space is to be held in common by owners of lots in the development, a homeowner's association or similar legally constituted body shall be created to maintain it. Any restriction placed on use of lands, which is required by this article, or which was placed as a condition of approval of a planned residential development shall vest in the county the right to enforce the restriction against anyone who has or acquires an interest in the land subject to the restriction.

Sec. 30-423. - Open space.

Open space shall be deed and plat restricted to nonstructural agricultural, forestry, recreational or environmental protection uses except that accessory structures essential to the open space uses may be approved. A private on-site wastewater treatment system may be located in such an area provided no suitable site is available on the lot served by the system. Open space shall be contiguous.
Sec. 30-424. - Density.

The number of platted home sites shall not exceed 125 percent of those which would have been possible if the same land were platted in accordance with the minimum lot sizes, setbacks and widths provided by the applicable provisions of this chapter and chapter 58, pertaining to subdivisions. This figure shall be determined by use of the development yield analysis provided in the application and approval process of this section.

(Land Use Pamphlet, § 3.5(5))

Sec. 30-425. - Lot sizes, widths, setbacks, and vegetation protection.

The minimum lot size for such development shall be 30,000 square feet with a 150-foot minimum average lot width and side yard setbacks of ten feet minimum, and 40 feet in total. Front yard setback shall be 30 feet, and rear yard setback shall be 40 feet.

(Land Use Pamphlet, § 3.5(6))

Sec. 30-426. - Design guidelines for approval.

(a) Roadways, lots and building envelopes shall be located in areas where they will have the least effect on forests, environmentally sensitive areas, crop land, pasture, meadow, farm buildings and historic structures, and where they will retain or enhance the visual character of the rural landscape. However, in resolving conflicts between these interests, priority shall be given to protection of waterways and their buffers, steep slopes, regulated floodplains and avoidance of a fragmented landscape.

(b) All residential lots and dwellings shall be encouraged into clusters. Residential clusters shall be located to minimize negative impacts on the natural, scenic and cultural resources of the site, and conflicts between incompatible uses.

(Land Use Pamphlet, § 3.5(7))

Sec. 30-427. - Site development and land disturbing guidelines.

(a) Existing natural drainage ways shall be retained to the greatest extent possible.

(b) Existing natural vegetation shall be preserved in areas where disturbance outside the building envelope is not essential.

(Land Use Pamphlet, § 3.5(8))

Sec. 30-428. - Application procedure and approval process for a planned residential development.

(a) Initial conference. Before submitting a conditional use application for a planned residential development, the applicant or subdivider shall schedule an appointment with the land services department staff to discuss the procedure for approval of a planned residential development, including submittal requirements and design standards.

(b) Initial application. After the initial conference, the applicant or subdivider shall submit a conditional use application and a series of maps and descriptive information to the land services department according to the following. Mapping for the initial application can be done in any combination of features as long as individual map components can be distinguished and the relationship between map components can be determined.
Inventory and mapping of existing resources including the following mapped at a scale of no less than one inch equals 50 feet.

a. Land contours based at a minimum upon the most recent Burnett County Lidar data.

b. United States Department of Agriculture Natural Resource Conservation Service soil type locations and characteristics. Location of bedrock and areas of high potential for groundwater contamination should also be noted.

c. Hydrological characteristics, including surface water bodies, floodplains, wetlands, groundwater recharge and discharge areas, natural swales, drainage ways and steep slopes.

d. Land cover on the site, according to general cover type, including comments on the health and condition of trees and other vegetation.

e. Current and past land use, all buildings and structures on the land, cultivated areas, paved areas, and all encumbrances, such as easements and covenants. Any waste sites, brownfields or waste disposal practices should also be disclosed.

f. Known critical habitats for rare, threatened or endangered species.

g. Views of the site from surrounding roads, and/or nearby elevated areas, indicating on the map where photographs were taken.

h. Unique geological resources, such as rock outcrops or glacial features.

i. Cultural resources, if applicable, such as historic buildings, archaeological sites, and burial sites.

Development yield analysis. The subdivider shall submit a table showing the maximum number of dwelling units that would be permitted under this chapter, consistent with the minimum lot size, lot widths, setbacks and other provisions of this chapter and compare it to the number of dwellings proposed. Land that is undevelopable because of other laws and ordinances that prohibit development in certain areas (e.g., floodways) shall be excluded from the development yield analysis.

Site analysis and concept plan. Using the inventory provided in subsection (b)(1) of this section, the development yield analysis provided in subsection (b)(2) of this section, and the design standards in sections 30-425 through 30-427, the subdivider shall submit a concept plan including at least the following information at a scale of no less than one inch equals 50 feet:

a. Open space areas indicating which area is to remain undeveloped.

b. Boundaries of areas to be developed and proposed general roadway and lot layout.

c. Number and type of housing units proposed.

e. Inventory of preserved and disturbed natural features and prominent views.

f. Preliminary development envelopes showing areas for lawns, pavement, buildings and grading.

(g) Proposed methods of ownership and management of open space.

General location map. The subdivider shall submit a map showing the general outlines of existing buildings, land use, and natural features such as water bodies, wetlands or wooded areas within 500 feet of the tract. This information may be presented on an aerial photograph at a scale of no less than one inch equals 400 feet.

Review of initial application. Within 30 days following the filing of a complete application for conditional use, the land services department shall meet with the subdivider to review the
application. Staff from appropriate state agencies may also be requested by the county to review the conditional use application. The land services department shall make the determination of whether the application is complete. (For the purpose of this chapter, a complete application accepted by the land use and information committee may include a preliminary plat as provided for in the subdivision control ordinance codified in chapter 58, which may be subject to modification through the public hearing process.) Upon determination that the application is complete, the application will be scheduled for a public hearing for a conditional use permit as provided under article VIII of this chapter. (This public hearing may include review of the preliminary plat.)

(d) *Review of conditional use.* The conditional use application for a planned residential development shall be reviewed in accordance with the provisions of article VIII of this chapter, and the requirements of this section. Approval of the conditional use application is required prior to the filing of the preliminary plat as required under the subdivision control ordinance codified in chapter 58.

(Land Use Pamphlet, § 3.5(9))

Secs. 30-429—30-434. - Reserved.

ARTICLE III. - SUPPLEMENTARY REGULATIONS

DIVISION 1. - GENERALLY

Sec. 30-435. - Application of regulations.

The use of any land or water; the size, shape, and placement of lots; the use, size, height, type, and location of structures thereon; and the provisions for open spaces shall be in compliance with the regulations set forth on the "Official Zoning Map, Shoreland Wetland Map and Floodplain Maps, Burnett County, Wisconsin," and in the text of this chapter.

(Land Use Pamphlet, § 4.1)

Secs. 30-436—30-442. - Reserved.

DIVISION 2. - STANDARD DISTRICT REGULATIONS

Sec. 30-443. - Setback requirements on highways and roads.

(a) All state and U.S. numbered highways are hereby designated class A highways. The setback line for class A highways and for any other roads designated as major roads on official maps in effect in the county shall be 66 feet from road right-of-way as established by a Wisconsin licensed professional land surveyor or 130 feet from centerline when no survey exists.

(b) All county trunk highways not otherwise designated as class A highways are hereby designated class B highways. The setback for class B highways and for roads designated as arterial roads on official maps in effect in the county shall be 42 feet from road right-of-way as established by a Wisconsin licensed professional land surveyor or 75 feet from centerline when no survey exists.

(c) All town roads not otherwise designated class A or class B highways are hereby designated class C highways. The setback for class C highways and for streets other than major and arterial roads designated as such on official maps in effect in the county shall be 30 feet from road right-of-way as established by a Wisconsin licensed professional land surveyor or 63 feet from centerline when no survey exists.

(d) A setback equal to the average setback of all existing principal buildings located within 300 feet of a proposed building site and on the same side of the road for class A, class B and class C highways,
shall be permitted where three of these buildings do not conform to the appropriate setback line. The proposed principal building shall not be constructed closer than 25 feet to the right-of-way unless allowed per subsection (h).

(e) When deemed necessary by the county land use and information committee in connection with development such as highway improvement programs, property owners and public utilities may be required to remove, at their own expense and without right of compensation, any structures erected within setback lines.

(f) Any proposed or planned roads (e.g., frontage roads, service roads, access roads, etc.) indicated in the county land use/zoning maps shall require all buildings to meet the required setbacks designated above. Any proposed or planned roads not designated shall be considered class C highways for setback purposes.

(g) Structural setbacks from privately constructed roads (except individual driveways) shall be 40 feet from the centerline of the physical road or center of the easement when applicable.

(h) Within the unincorporated village overlay district a minimum structural setback distance of ten feet from the right-of-way line of any street, road or alley shall be maintained. Special structural setback reductions will be permitted within the unincorporated village overlay if there are at least three existing principal buildings, built to less than the required setback (ten feet), within 300 feet on either side of the proposed site, the reduced setback may be equal to but no closer than the setback of the closest adjacent principal building.

(i) Public utility equipment without permanent foundations are allowed, such as; overhead telephone, overhead electric, open fences less than 10 feet in height, underground telephone, underground electric, underground fiber optic, underground gas, underground public sewer, underground public water as long as they have approval from the department/agency who has oversight of the highway/road that it will not be a safety hazard. Public utility equipment with foundations and roofed or enclosed buildings must be at least 10 feet from any property line and must have approval from the department/agency that has oversight of the highway/road that it will not be a safety hazard. No roofed or enclosed building shall be more than 10 feet in height. When deemed necessary by the county land use and information committee in connection with development such as highway improvement programs, property owners and public utilities may be required to remove, at their own expense and without right of compensation, any such structures erected within setback lines. No public/private utility pole, tower or structure located within any road right-of-way shall exceed a height of 75 feet.

(Land Use Pamphlet, § 4.2(1))

Sec. 30-444. - Principal structure density.

Only one principal structure is allowed per parcel. In commercial and industrial districts more than one principal structure is allowed provided that the maximum potential density, as demonstrated by survey, is not being exceeded.

(Land Use Pamphlet, § 4.2(2))

Sec. 30-445. - Excessive height permitted.

Heights of the following structures may exceed chapter limits for the district in which they are to be located with the approval of the county land use and information committee via Conditional Use Permit: cooling towers, stacks, lookout towers, utility towers, water towers, spires, commercial radio and commercial television aerials, masts, antennas and necessary mechanical appurtenances.

(Land Use Pamphlet, § 4.2(3))
Sec. 30-446. - Lot sizes.

(a) After adoption of this chapter, no lot area shall be so reduced that the dimensional and yard requirements required by this chapter cannot be met. Lots existing and of record prior to adoption of this chapter, but of substandard size, may be devoted to uses permitted in the district in which located.

(b) Substandard lots. A legally created lot or parcel that met minimum area and minimum average width requirements when created, but does not meet current lot size requirements, may be used as a building site if all the following apply:

(1) The substandard lot or parcel was never reconfigured or combined with another lot or parcel by plat or survey pursuant to Wis. Stats. § 236.

(2) The substandard lot or parcel has never been developed with one or more of its structures placed partly upon an adjacent lot or parcel. Removing a structure or structures placed partly upon adjacent lot or parcel does not make the lots/parcels separate.

(3) The substandard lot or parcel is developed to comply with all other ordinance requirements.

(c) Lots created after adoption of this chapter and which are not served by public sewer systems shall meet minimum requirements of the Burnett County Ordinances.

(Land Use Pamphlet, § 4.2(4); Res. No. 2013-10, 4-16-2013)

Sec. 30-447. - Accessory uses and structures.

(a) Any permanent structure serving as an accessory use, if attached to the principal building, shall be considered a part of the principal building. If such structure is not attached to the principal building, it shall conform to the setback and other dimensional requirements of the district within which it is located.

(b) A single (one per lot/parcel) bunkhouse/temporary guest quarters will be permitted by land use permit where:

(1) The bunkhouse/temporary guest quarters shall be located within or as part of an accessory structure.

(2) The bunkhouse/temporary guest quarters shall not exceed 50% of the gross floor area of the accessory structure with a maximum of 499 square feet of habitable floor area. Square footage is measured as all area within the exterior walls of the habitable area and all area within the exterior walls of the entire area of the structure. Enclosed porches will be included in these amounts, decks will not be included in these amounts. Although not habitable by definition bathrooms, utility rooms, kitchens, entry ways, closets and interior stairwells will be included in the square footage not to exceed 499. Storage area must be separate and segregated from any habitable area (can have a door from the habitable area to the storage area).

(3) All setback requirements are met including road, property line and wetland.

(4) Minimum average lot width of 100 feet and minimum lot area of 30,000 square feet are provided.

(5) Plumbing, if installed, conforms to the county sanitary code.

(6) Leasing, rental or use as a residence is strictly prohibited.

(7) A document is recorded outlining use restrictions.

(8) The lot/parcel does not exceed the principal building density allowed.

(9) Not allowed in Commercial or Industrial districts.
(10) The POWTS on the lot must be sized to handle the number of occupants in the principal structure.

(c) A single (one per lot/parcel) independent bunkhouse/temporary guest quarters will be permitted by land use permit where:

(1) The structure does not exceed 250 square feet of footprint. Square footage is measured as the exterior wall area of the structure. Enclosed porches will be included in this amount, decks will not be included in these amounts. Entry ways and interior stairwells will be included in the square footage not to exceed 250.

(2) Plumbing of the structure would be prohibited.

(3) All setback requirements are met including road, property line and wetland.

(4) Minimum average lot width of 100 feet and minimum lot area of 20,000 square feet are provided.

(5) Leasing, rental or use as a residence is strictly prohibited.

(6) A document is recorded outlining use restrictions.

(7) The lot/parcel does not exceed the principal building density allowed.

(8) Not allowed in Commercial or Industrial districts.

(9) The height limit shall not exceed 20 feet as measured in Chapter 45 of the Burnett County ordinances.

(10) The POWTS on the lot must be sized to handle the number of occupants in the principal structure.

(Land Use Pamphlet, § 4.2(5))

Sec. 30-448. Drainage, sanitation and water supply.

(a) No principal building intended for human use or occupancy shall be erected, structurally altered, or relocated on a lot, unless provision is made for safe and adequate facilities for water supply and disposal of sewage in accordance with the regulations of the county sanitary code and the appropriate requirements of the Wisconsin Administrative Code.

(b) The county zoning administrator shall not hereafter authorize a building to be erected, structurally altered, or relocated which has a POWTS unless the plans for the system have been reviewed in accordance with the provisions of the county sanitary code and the Wisconsin Administrative Code, and a sanitary permit has been issued, if required. POWTS for dwelling units shall meet the location requirements of the county sanitary code and the applicable minimum standards of the Wisconsin Administrative Code.

(c) Planned unit developments shall be served by POWTS facilities that meet the requirements of the county sanitary code and the applicable minimum standards of the Wisconsin Administrative Code.

(Land Use Pamphlet, § 4.2(6))

Secs. 30-449 Contiguous Parcels.

Contiguous parcels which are platted by either a Certified Survey Map, State Plat, or County Plat will be treated as individual parcels. Ownership by the same individual of the contiguous lots does not make the lots combined. Tax roll listing does not make platted lots combined. Setbacks must be met for each individual parcel. The contiguous lots shall not be treated as a single parcel for Land Use/Zoning purposes until the requirements of Burnett County Ordinance 58-29(c) or (d) have been met.
Sec. 30-450. – Setbacks for structure eaves.

Up to a 2 foot wide eave will be allowed within any setback. Eaves greater than 2 feet wide will need to meet the setbacks. No deck, platform, sidewalk, lean-to, overhang, walking surface or other structure or structural component will be allowed within the setback unless permitted by other ordinances, state law, federal law or variance.

Sec. 30-451. – Setbacks for deposition of human remains.

The site for the deposition of human remains shall meet all setbacks including, but not limited to; lake, stream, pond, river, wetlands, side line, front line, rear line and road right-of-way. This includes any above or below ground items and/or structures such as; grave, cremation ashes, casket, vault, crypt, mausoleum, columbarium, headstone, plaque, marker, urn or monument.

Sec. 30-452. – Wetlands.

(a) A setback of 40 feet from the wetland to the nearest part of a building or structure shall be required for all buildings and structures, except for those structures exempt under other provisions.

(b) Locating wetland boundaries. Where an apparent discrepancy exists between the wetland district boundary shown on the Wisconsin Wetland Inventory Maps (as referenced in section 30-28 of this chapter) and actual field conditions, the county shall contact the department to determine if the map is in error. If the department determines that a particular area was incorrectly mapped as wetland or meets the wetland definition but was not shown as wetland on the map, the county shall have the authority to immediately grant or deny a permit in accordance with the applicable regulations based on the department determination as to whether the area is wetland.

(c) Purpose to protect wetlands. Wetlands should be protected to prevent water pollution, protect aquatic life and wildlife habitat, to preserve natural beauty, to reduce flood hazards to life and property. When development is permitted in a wetland, the development should occur in a manner that minimizes adverse impacts upon the wetland.

(d) Permitted uses. The following uses shall be allowed subject to the general zoning regulations:

(1) Activities and uses which do not require the issuance of a land use permit but which must be carried out without filling, flooding, draining, dredging, ditching, tiling or excavating:

a. Hiking, fishing, trapping, hunting, swimming, boating, snowmobiling and skiing.

b. The harvesting of wild crops, such as marsh hay, ferns, moss, wild rice, berries, tree fruits and tree seeds, in a manner that is not injurious to the natural reproduction of such crops.

c. The practice of silviculture, including the planting, thinning, and harvesting of timber, except as regulated under chapter 45.

d. The pasturing of livestock.

e. The cultivation of agricultural crops.

f. The construction and maintenance of duck blinds that comply with state and federal hunting regulations.
(2) Permitted uses which do not require a land use permit and which may involve filling,
flooding, draining, dredging, ditching, tiling or excavating but only to the extent specifically
provided below:

a. Temporary water level stabilization measures necessary to alleviate abnormally wet or
dry conditions that would have an adverse impact on silvicultural activities if not corrected.
b. The cultivation of cranberries including flooding, dike and dam construction or ditching
necessary for the growing and harvesting of cranberries.
c. The maintenance and repair of existing agricultural drainage systems including
ditching, tiling, dredging, excavating and filling necessary to maintain the level of drainage
required to continue the existing agricultural use. This includes the minimum filling
necessary for disposal of dredged spoil adjacent to the drainage system provided that
dredged spoil is placed on existing spoil banks where possible.
d. The construction or maintenance of fences for the pasturing of livestock, including
limited excavating and filling necessary for such construction and maintenance.
e. The construction or maintenance of piers, docks or walkways built on pilings, including
limited excavating and filling necessary for such construction and maintenance.
f. The maintenance, repair, replacement or reconstruction of existing town and county
highways and bridges, including limited excavating and filling necessary for such
maintenance, repair, replacement or reconstruction.

(3) Uses which require the issuance of a land use permit and which may include limited
filling, flooding, draining, dredging, ditching, tiling or excavating, but only to the extent
specifically provided below:

a. The construction and maintenance of roads which are necessary to conduct
silvicultural activities or agricultural cultivation provided that:
   1. The road cannot as a practical matter be located outside the wetland;
   2. The road is designed and constructed to minimize the adverse impact upon the
      natural functions of the wetland enumerated in this section;
   3. The road is designed and constructed with the minimum cross-sectional area
      practical to serve the intended use;
   4. Road construction activities are to be carried out in the immediate area of the
      roadbed only.
b. The construction and maintenance of nonresidential buildings provided that:
   1. The building is essential for and used solely in conjunction with raising of waterfowl,
      minnows, or other wetland or aquatic animals; or some other use permitted in a
      wetland;
   2. The building cannot, as a practical matter, be located outside the wetland;
   3. Such building is not designed for human habitation and does not exceed 500 square
      feet in floor area; and
   4. Only the limited filling or excavating necessary to provide structural support for the
      building is authorized.
c. The establishment and development of public and private parks and recreation areas,
natural and outdoor education areas, historic and scientific areas, wildlife refuges, game
bird and animal farms, fur animal farms, fish hatcheries and public boat launching ramps
and attendant access roads, provided that:
   1. Any private development is used exclusively for the permitted use and the applicant
      has received a permit or license under Wis. Stats. ch. 29, where applicable.
2. Filling or excavating necessary for the construction or maintenance of public boat launching ramps or attendant access roads is allowed only where such construction or maintenance meets the criteria in subsections 30-452(d)(3)a.1.-4.; and

3. Ditching, excavating, dredging, or dike and dam construction in public and private parks and recreation areas, natural and outdoor education areas, wildlife refuges, game bird and animal farms, fur animal farms, and fish hatcheries is allowed only for the purpose of improving wildlife habitat and to otherwise enhance wetland values.

d. The construction or maintenance of electric, gas, telephone, fiber optic, water and sewer transmission and distribution facilities, by public utilities and cooperative associations organized for the purpose of producing or furnishing heat, light, power or water to their members provided that:

1. The transmission and distribution lines and related facilities cannot as a practical matter be located outside the wetland; and

2. Such construction or maintenance is done in a manner designed to minimize adverse impact upon the natural functions of the wetland enumerated in this section.

Sec. 30-453. – Wetland prohibited uses.

Any use not listed in section 30-452 is prohibited.

Sec. 30-454. - Resorts and condominiums.

The construction of additional rental cabins/dwellings within an existing resort or the construction of additional dwelling units within a recorded condominium shall meet the minimum average lot width and parcel size requirements of the zoning district standards. To determine the number of total cabins/dwelling units allowed, take the total lot or parcel size and divide by the zoning district requirement. No principal structure shall be located less than 20 feet from an existing principal structure and shall meet all road, lot line, wetland and POWTS setbacks.

Sec. 30-455. – Short-term Rental.

Any person who maintains, manages, or operates a short-term rental, as defined in State Statute 66.0615(1)(dk), for more than 10 nights each year shall obtain a Short-Term Rental License from the county.

1. The license must be renewed annually. Once all the requirements listed below have been satisfied and agreed to by the parcel owner, the Land Services Department will issue a license.

   a. Private On-Site Wastewater Sanitary System (POWTS) shall accommodate design flow for number of occupants being rented to and for the number of occupants being advertised for.

   b. The use of camping units in conjunction with the rental of the parcel(s) is prohibited.

   c. State license, as defined in State Statute 97.01(15k), shall be obtained and presented to the Land Services Department prior to obtaining county license.

   d. Applicant shall provide a local contact located within 50 miles of driving distance of the rental parcel(s).

   e. Property line(s) must be identified and designated so it will be clear to the tenant.

   f. All current zoning violations must be fully resolved and corrected before a license will be issued/renewed by the county.

   g. County has permission to inspect the entire parcel during normal working hours before and during license period to investigate any complaints or possible violations.
h. Private On-Site Wastewater Sanitary System (POWTS) shall be serviced/inspected per Wisconsin Administrative Code requirements and reported to the county per requirements.

i. No parking allowed on road(s), in the road right-of-way, in ingress/egress easements, or on top of Private On-Site Wastewater Sanitary System (POWTS) components.

j. The annual county license shall commence on February 1st and expire on January 31st. A new license shall be obtained with any change of ownership, and shall be obtained prior to operation by the new owner. Licenses not renewed by March 1st will be charged up to three times the fee as the late fee.

k. Applicant shall provide a document that outlines rental guidelines. Items to be included in the rental guidelines are: occupancy limit, parking requirements, garbage collection/service, local contact name with phone number, emergency contact information (911, police, fire, etc), state license # with state contact information, county contact information and a blank area for the county license number.

l. A weather proof placard with a display area of at least 5 inches x 7 inches with a font size of at least 12 Times New Roman listing the guidelines from item (k) shall be posted on an exterior wall of each habitable structure within 2 feet of the main entrance door. The bottom of the placard shall be located 5 feet above the height of the sill plate of the main entrance.

m. Additional rental guidelines can be required by the owner; however they are not required for item (k) or (l).

n. Applicant can’t be delinquent on property taxes or local room taxes.

o. Applicant shall pay the required county annual license fee.

2. Once the license is approved by the county, the county will send a copy of the license to all adjacent property owners and to the Town Clerk.

3. If a Conditional Use Permit (CUP) has been obtained in the past (and is still active, valid and all CUP conditions have been satisfied), a license from the county is still required; the 2018 year license will be issued with no fee, in the 2019 year those will need to pay the renewal fee.

Secs. 30-456—30-479. - Reserved.

DIVISION 3. - OFF-STREET PARKING

Sec. 30-480. - Parking.

Any building hereafter erected or placed on a lot shall be provided with off-street parking spaces for those using such building.

(1) Each parking space required must be at least 180 square feet of usable parking area.

(2) Residential uses shall be provided with at least one parking space for each dwelling unit.

(3) Commercial and industrial uses as listed and permitted in the zoning districts, shall be provided, except as noted below, with one parking space for each 200 square feet of retail floor area for commercial uses and one parking space for each 400 square feet of useable floor area for industrial uses. However, restaurants, taverns and similar establishments shall be provided with at least one space for each three seats devoted to patron use; motels, tourist cabins and similar establishments, shall be provided with at least one space for each unit; drive-in eating stands offering in-car service shall be provided with at least five spaces for each person employed to serve customers.
(4) Public gathering uses shall be provided with at least one space for each three patrons to be accommodated on the premises.

(5) Off-street parking will not be required in the unincorporated village overlay district (UVOD) where parking is allowed and provided for on public right-of-way.

(Land Use Pamphlet, § 4.3(1))

Sec. 30-481. - Off-street loading and unloading.

Any commercial or industrial building hereafter erected or placed on a lot, shall be provided with sufficient off-street loading and unloading space so that no public streets or alleys need be blocked by such activities. In the industrial district such buildings shall be provided with a minimum of 400 square feet of off-street loading and unloading space.

(Land Use Pamphlet, § 4.3(2))

Sec. 30-482. - Driveways and private roads.

(a) Private roads are described as those serving more than one parcel. All private roads serving multiple parcels shall be a minimum width of 33 feet. All private roads which serve new agricultural, industrial, residential or commercial buildings shall meet the following within 60 days of land use permit issuance:

(1) Private roads shall have a minimum clearance width of 20 feet. Any curves in private roads must not be less than 100-foot radius.

(2) Overhead clearance shall be established at a minimum height of 13 feet.

(3) Private roads must provide an adequate turnaround area that will accommodate a 30-foot long fire truck. The turnaround space can be provided by one of the following methods:

a. If a circle private road is constructed, it must have a radius of no less than 35 feet to the centerline; or

b. A turnaround space free of trees and other obstructions may be provided if it has the dimensions of not less than 60 feet by 50 feet.

(b) Driveways are described as serving only one parcel. All driveways which serve new agricultural, industrial, residential or commercial buildings that are greater than 75 feet from a public or private road shall meet the following within 60 days of land use permit issuance:

(1) Driveways shall have a minimum clearance width of 20 feet. Any curves in driveways must not be less than 100-foot radius.

(2) Overhead clearance shall be established at a minimum height of 13 feet.

(3) Driveways exceeding 150 feet in length must provide an adequate turnaround area that will accommodate a 30-foot long fire truck. The turnaround space can be provided by one of the following methods and shall be within 75 feet of the principal building:

a. If a circle drive is constructed, it must have a radius of no less than 35 feet to the centerline;

b. A turnaround space free of trees and other obstructions may be provided if it has the dimensions of not less than 60 feet by 50 feet; or

c. A turnout may be provided with the following dimensions: the length shall be a minimum of 30 feet. The width at the entrance shall also be a minimum of 30 feet. The turnout may be trapezoidal in shape, thereby tapering down to a minimum of 20 feet at the rear. In
addition, a minimum of 40 feet of driveway must be provided between the building and the turnout to allow enough room to back a 30-foot long fire truck into the turnout.

(c) Exemptions from the provisions of this section would include:

(1) New buildings that are 75 feet or less from a public or private road.

(2) Those portions of both private roads and driveways that are restricted by existing easement.

(d) In the interest of public safety and better delivery of emergency services, the county board encourages and recommends that existing private roads and driveways be upgraded to these minimum standards.

(Land Use Pamphlet, § 4.3(3))

Secs. 30-483—30-489. - Reserved.

DIVISION 4. – FENCES AND RETAINING WALLS

Sec. 30-490. - Fences.

(a) Solid Fences. A solid fence is considered to be wood panels, wood boards, metal panels, glass panels, or any other type of fence structure besides chain link, wood rail, or wire.

(b) Agricultural/livestock open type fences might be exempt under other statutes. These are only allowed in zoning districts which allow livestock or via a conditional use permit in other districts.

(c) Open Fences. An open fence is considered to be a chain link, wood rail or wire.

(d) Fence height is measured from the lowest original grade at the fence location perpendicular to the slope to the highest point of any fence component.

(e) Any open or solid fence 10 feet or less in height is allowed to be placed on the side, front, or rear lot line with a setback of zero feet and a wetland setback of 5 feet. Lake setbacks still apply in this case.

(f) Any open or solid fence 10 feet or less in height is allowed to be placed on the road right-of-way line with a setback of zero feet and a wetland setback of 5 feet. Lake setbacks still apply in this case.

(g) No county land use permit will be required for open or solid fences if they comply with the above criteria.

(h) Any open or solid fence over ten feet in height will be treated as an accessory structure and must meet all accessory structure setback requirements and requires a land use permit.

Sec. 30-491. – Retaining walls.

(a) Any retaining wall 3 feet or less in height is allowed to be placed on the road right-of-way line with a setback of zero feet. These retaining walls must also have a side, front and rear setback of zero feet. These retaining walls will have a wetland setback of at least 10 feet. Lake/river setbacks must be met. No land use permit is required for these.

(b) Any retaining wall with a height greater than 3 feet and less than 6 feet is allowed to be placed with a road right-of-way setback of 10 feet. These retaining walls will also have a side, front and rear setback of at least 10 feet. These retaining walls can have a reduced side, front and rear setback if the adjoining land owner, whom is impacted by the reduced setback, signs a document agreeing to the reduced setback, this document must be included with the land use permit. These retaining walls will have a wetland setback of at least 20 feet. A land use permit will be required for any retaining wall with a height greater than 3 feet. Lake/river setbacks must be met.
(c) Any retaining wall with a height greater than 6 feet and less than 10 feet must meet road right-of-way setbacks. These retaining walls will also be required to meet all side, front and rear setbacks. These retaining walls will have a wetland setback of at least 40 feet. A land use permit is required for any retaining wall with a height greater than 3 feet. Lake/river setbacks must be met.

(d) Any retaining wall 10 feet or greater in height will require engineered drawings and must be certified by a Wisconsin professional engineer within 1 month of construction completion. The certification must be submitted to the county land services department within 1 month of construction completion. A land use permit is required for these and all setbacks must be met. Lake/river setbacks must be met.

Secs. 30-492—30-520. - Reserved.

ARTICLE IV. - SIGN REGULATIONS

Sec. 30-521. - Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Commercial speech means any sign wording, logo or other representation advertising a business, profession, commodity, service or entertainment for business purposes.

Noncommercial speech means any message that is not commercial speech, which includes, but is not limited to, messages concerning political, religious, social, ideological, public service and informational topics.

Nonconforming sign means any sign which was lawful prior to but which does not comply with the terms of this article (or its amendment).

Ordinary high-water mark means the point on the bank or shore up to which the presence and action of surface water is so continuous as to leave a distinctive mark such as erosion, destruction or prevention of terrestrial vegetation, predominance of aquatic vegetation or other easily recognized characteristic.

Sign means a display, illustration, structure or device that directs attention to an idea, object, product, place, activity, person, institution, organization or business.

Sign, area, means the total size of the sign including all components.

Sign, banner, means any sign of lightweight fabric or similar material that is permanently mounted to a pole or a building at one or more edges. Flags that comply with section 30-523(d)(3) shall not be considered banners.

Sign, beacon, means any light with one or more beams directed into the atmosphere or directed at one or more points not on the same zone lot as the light source; also, any light with one or more beams that rotate or move.

Sign, building, means any single-faced sign painted on, attached to or erected against the exterior wall of a building, structure, marquee, canopy or awning. Also including any sign placed on the interior of a window or painted on a window such that it can be read from the outside of the building.

Sign component means any element of a sign or its source of support (excluding a building), including but not limited to support structure, accessories, wiring, framing. Paint, vinyl, paper, fabric, light bulbs, diodes, or plastic copy panels on a sign do not constitute components.

Sign, freestanding, means any sign supported by structures or supports that are placed on or anchored in the ground and that are independent from any building or other structure, including, but not limited to, a ground-mounted sign, detached sign, pole sign, pylon sign or monument sign.
Sign, incidental, means a sign that is not legible to a person of ordinary eyesight with vision adequate to pass a state driver's license exam standing at ground level at a location on the public right-of-way or on other private property.

Sign, monument, means a freestanding sign where the base of the sign structure is on the ground.

Sign, off-premises, means a sign, which displays a commodity, product, service, activity or any other person, place, thing or idea other than noncommercial speech, which is not located, found or sold on the premises upon which such sign is located.

Sign, off-premises directional, means a sign displayed for the sole purpose of assisting wayfinding through disclosure of no more than the name of a place, its distance from the sign and one directional arrow.

Sign, on-premises, means a sign which only displays a commodity, product, service, activity or any other person, place, thing or idea, which is located, found or sold on the premises upon which such sign is located, or a noncommercial speech.

Sign, on-premises directional, means a sign at the exit or entrance of premises that have two or more driveways.

Sign, portable, means any sign not permanently attached to the ground or other permanent structure, or a sign designed to be transported, including, but not limited to, signs designed to be transported by means of wheels; signs converted to A- or T-frames; balloons used as signs; umbrellas used for advertising; and signs attached to or painted on vehicles parked and visible from the public right-of-way, unless said vehicle is used for transportation in the normal day-to-day operations of the business.

Sign, projecting, means any sign affixed to a building or wall in such a manner that its leading edge extends more than six inches beyond the surface of such building or wall.

Sign, property address, means a sign as provided for in section 54-40 et seq., the county uniform rural numbering system.

Sign, roof, means any sign erected and constructed wholly on and over the roof of a building, supported by the roof structure and extending vertically above the highest portion of the roof.

Sign, special event, means a sign that is temporary in nature and is not permanently mounted or attached to the ground or sign surface, and is used for special events, such as but not limited to, grand openings, promotions, seasonal sales, garage sales, craft sales, graduation or birthday parties, festivals or fairs.

Sign, temporary, means any sign that is used only for a limited period of time and is not permanently mounted.

Sec. 30-522. - Findings and purpose.

(a) Findings of fact. The county board hereby finds as follows:

(1) Exterior signs have a substantial impact on the character and quality of the environment.

(2) Signs provide an important medium through which individuals may convey a variety of messages.

(3) Signs can create safety hazards that threaten the public health, safety or welfare. Such a safety threat is particularly great for signs that are structurally inadequate, or that may confuse or distract drivers or pedestrians, or that may interfere with official directional or warning signs.

(4) Signs can also threaten the public welfare by creating aesthetic concerns and detriments to property values. Such aesthetic concerns and detriments to property values are particularly great when an accumulation of signs results in visual clutter, or when one or more signs spoil
vistas or views, or when one or more signs add or increase commercialism in noncommercial areas.

(5) The ability to erect signs serving certain functions, such as an address sign or a sign announcing that the property on which it sits is for sale or for lease is an integral part of nearly every property owner’s ability to realize the fundamental attributes of property ownership. The same cannot be said for signs serving other functions, such as billboards erected so as to be visible from public rights-of-way. Such signs are primarily designed to take advantage of an audience drawn to that location by the public’s substantial investment in rights-of-way and other public property.

(6) Signs serving certain other functions, such as small signs that serve a purely directional function, are necessary to enable visitors or residents to efficiently reach their intended destinations. Experience teaches that citizens often plan as if such signs will be present in those settings, so in the absence of such signs, frustration and disorientation will result, and time and fuel will be wasted.

(7) With one narrow exception, only static signs (which change, if at all, only on rare occasions when they are repainted or covered with a new picture) constitute a customary use of signage in the county. The only nonstatic signs that constitute a customary use of signage in the county are components of on-premises signs for which frequent changes are necessary for the purpose of updating numerical hour-and-minute, date, or temperature information. Such signs are unique because their accuracy depends upon their ability to frequently change, and because in their customary use such signs are less apt to distract drivers or pedestrians to a dangerous degree than other types of nonstatic signs. In Commercial zoning districts a digital sign is allowed to change its message once every six seconds. Each change of message shall be accomplished in one second or less.

(8) No signs that exceed the size or spacing limitations of this section constitute a customary use of signage in the county.

(9) The county’s land use regulations have included the regulation of signs in an effort to foster adequate information and means of expression and to promote the economic viability of the community, while protecting the county and its citizens from a proliferation of signs of a type, size, location and character that would adversely impact upon the aesthetics of the community or threaten health, safety or the welfare of the community. The appropriate regulation of the physical characteristics of signs in the county and other communities has had a positive impact on the safety and the appearance of the community.

(b) Purpose. The purpose of this section is to:

(1) Regulate signage in a manner that does not create an impermissible conflict with statutory, administrative, or constitutional standards, or impose an undue financial burden on the county.

(2) Provide for fair and consistent enforcement of the sign regulations set forth herein under the zoning authority of the county.

(3) Improve the visual appearance of the county while providing for effective means of communication and orientation, particularly in those settings in which the need for such communication or orientation is greater, consistent with constitutional guarantees and the county’s findings and other purposes.

(4) Maintain, enhance and improve the aesthetic environment of the county, including its scenic views and rural character consistent with the county land use plan purpose of each zoning district, by preventing visual clutter that is harmful to the appearance of the community, protecting vistas and other scenic views from spoliation, and preventing or reducing commercialism in noncommercial areas.

(5) Regulate the number, location, size, type, illumination and other physical characteristics of signs within the county in order to promote the public health, safety and welfare.

(c) Effective date. This article shall be effective on January 21, 2009.
Sec. 30-523. - Provisions applicable to all signs.

(a) **Applicability.** The following regulations and standards are applicable to all signs in all zoning districts, including permanent, temporary, on-premises and off-premises signs, unless otherwise provided by this section:

(b) **Substitution clause and sign content.**

(1) Subject to the landowner's consent, noncommercial speech of any type may be substituted for any duly permitted or allowed commercial speech; provided, that the sign structure or mounting device is legal without consideration of message content. Such substitution of message may be made without any additional approval or permitting. This provision prevails over any provision to the contrary in this article. The purpose of this provision is to prevent any inadvertent favoring of commercial speech over noncommercial speech, or favoring of any particular noncommercial message over any other noncommercial message. This provision does not create a right to increase the total amount of signage on a lot or parcel, nor does it affect the requirement that a sign structure or mounting device be properly permitted.

(2) All noncommercial speech is considered on-premises signage and is entitled to the privileges that on-premises signs receive under this section.

(3) No commercial speech is allowed on a sign, other than a message drawing attention to a business or service legally offered on the premises, except as allowed in section 30-525(c) and (e).

(c) **Signs in the public right-of-way.**

(1) No sign or its structural components shall be erected or temporarily placed within any road, highway, right-of-way, public easement or upon any public property, except for the following, which may be placed without a permit:

   a. Public signs erected by or on behalf of a government body for the purpose of carrying out an official duty or responsibility, including but not limited to posting legal notices, identifying property, or to direct or regulate pedestrian or vehicular movements or pertaining to traffic control or safety.

   b. Property address signs per chapter 54, article II, division 2, the county uniform rural numbering system.

   c. Information signs of a public utility regarding its poles, lines, pipes or facilities.

   d. Signs erected by a governmental agency, a public utility company or a contractor doing authorized or permitted work within the public right-of-way, for the purpose of ensuring safety.

(2) Unauthorized signs erected or temporarily placed within any road, highway, right-of-way, public easement or upon any public property may be removed by the county or town in which the sign is located at the sign owner's expense.

(d) ** Signs exempt from regulation.** The following signs shall be exempt from regulation under this section:

(1) Governmental signs erected by or on behalf of a government body for the purpose of carrying out an official duty or responsibility, including but not limited to posting legal notices, identifying public property and indicating a public use except any of these signs larger than 32 square feet must meet setback, size, placement and illumination requirements.

(2) Signs that are traffic control devices and are permitted or allowed by the state manual on uniform traffic control devices published by the state department of transportation.
(3) Up to three flags on a single lot or parcel containing only noncommercial speech the combined area of which is less than 100 square feet in size. Flags not within this definition are deemed banners and freestanding signs subject to permit. For purposes of this subsection, a single lot includes but is not limited to an area to which a member of a condominium association, cooperative association, or residential real estate management association has a separate ownership interest or a right to exclusive possession or use.

(4) Interior signs located completely within a building and not visible from outside the building.

(5) Incidental signs.

(6) Temporary freestanding signs, containing no commercial speech, two square feet or less in size in farm fields.

(7) Temporary freestanding signs, containing no commercial speech, 36 square inches or less in size in any lawn.

(e) Suspension of certain size, shape, placement and content restrictions of signs during an election campaign period.

(1) Subject only to the exceptions in subsection (e)(5) of this section, during an election campaign period, signs containing noncommercial speech may be placed upon residential property notwithstanding any other restriction in this section of the size, shape, placement or content of any sign.

(2) For purposes of this subsection, the term "election campaign period" means:
   a. In the case of an election for office, the period beginning on the first day for circulation of nomination papers by candidates, or the first day on which candidates would circulate nomination papers were papers to be required, and ending on the day of the election.
   b. In the case of a referendum, the period beginning on the day on which the question to be voted upon is submitted to the electorate and ending on the day on which the referendum is held.

(3) If the owner of the property has rented some or all of the property to another, the renter may exercise the right in any area of the property that he or she occupies exclusively, and the owner of residential property may exercise the right in any portion of the property not occupied exclusively by a renter.

(4) If another part of this section, including the substitution clause provisions of section 30-523(b) creates a right to erect or display a particular type of sign, this subsection does not in any way limit the exercise of that right, whether or not the sign is erected or displayed during an election campaign period.

(5) Exceptions.
   a. No owner or renter may place a sign that is contrary to a size, shape, or placement regulation of this section if:
      1. Such regulation is necessary to ensure traffic or pedestrian safety; or
      2. The sign has an electrical, mechanical or audio auxiliary.
   b. This section shall not affect the county's authority to enforce any regulation against a sign that is prohibited from being erected or displayed under Wis. Stats. § 12.035 or 84.30.

(f) Prohibited signs. All signs, other than those permitted herein, shall be prohibited, including but not limited to:

(1) Signs that fail to satisfy one or more of the applicable regulations set forth in sections 30-523 and 30-524.

(2) Beacons except those associated with emergencies and aircraft facilities.
(3) Bench signs.
(4) Bus shelter signs.
(5) Flying signs, such as blimps or kites, designed to be kept aloft by mechanical, wind, chemical or hot air means that are attached to the property, ground or other permanent structure.
(6) Inflatable signs that are attached to the property, ground or other permanent structure, including but not limited to balloons.
(7) Signs and components and elements of faces of signs that move, shimmer, or contain reflective devices.
(8) Signs which emit any odor, noise or visible matter other than light.
(9) Signs painted directly on a building, fence, tree, and stone or similar object, except those on windows or buildings as allowed in sections 30-525(a) and 30-525(b)(5).
(10) Off-premises signs, except as allowed in sections 30-523(e), 30-525(c) and (e), and 30-526(a).
(11) Pennants.
(12) Portable signs in excess of 32 square feet. Each parcel is allowed one portable sign up to 32 square feet in size. This sign must meet all other requirements such as setbacks, height, placement and illumination standards.
(13) Projecting signs.
(14) Roof signs.
(15) Signs on utility poles (except for utility company signs for safety and informational concern).
(16) No advertising message or sign shall be affixed to any transmission facility.
(17) A vehicle used as a sign or as the base for a sign where the primary purpose of the vehicle in that location is its use as a sign.

(Land Use Pamphlet, § 5.0(B))

Sec. 30-524. - Standards.

(a) Placement standards.

(1) Signs shall not be placed on any property without the property owner's written approval.
(2) Building signs shall be placed below the roofline.
(3) No person shall place a sign which will obstruct or interfere with a driver or pedestrian's ability to see a road, highway, traffic sign, signal, railway crossing, crossroad or crosswalk. No sign or its structural components shall be erected or temporarily placed within the vision triangle of a road or highway.
(4) Double-faced signs shall be placed back-to-back (parallel) with not more than 18 inches between facings.

(b) Dimensional standards.

(1) Every portion of any sign and its structural components and mounting devices must meet the specified setbacks.
(2) Signs shall be set back at least ten feet from any right-of-way.
(3) Signs shall be set back at least 20 feet from all side and rear yard lot lines.
(4) Freestanding signs shall be separated from other structures by a minimum of ten feet, measured from edge of roof overhang to sign.

(5) The maximum height of any freestanding sign shall be 20 feet above the average elevation at the site of the sign.

(6) Sign area or size will be measured by the smallest square, rectangle or combination thereof which will encompass the entire sign, including the writing, representation, emblem or other display, together with any material or color forming an integral part of the background of the display or used to differentiate the sign from the backdrop or structure against which it is placed. It will not include the base, apron, supports, structural members, framework, poles, roof, embellishments or decorative base when such area meets the other regulations of this article.

(7) Multifaced signs shall not exceed two times the allowed square footage of single-faced signs.

c) Illumination standards.

(1) Externally illuminated signs shall have a shielded light source, which is downwardly directed.

(2) Illuminated signs shall be designed so as not to direct any light or produce glare onto adjacent properties or toward navigable waters.

(3) The county may specify the hours a sign may be illuminated and limit its brightness while illuminated. The hours of illumination or brightness limitations may be established at any time, including during the life of the sign.

(4) The lighted portions of an auxiliary canopy shall be backlit and considered sign area, which will be limited by the wall sign regulations of the underlying zoning district.

(5) Signs and sign components and elements of faces of signs shall not flash, move, travel or use animation. In Commercial zoning districts a digital sign is allowed to change its message once every six seconds. Each change of message shall be accomplished in one second or less.

(6) Unless a sign's only illumination is external and uncolored, the following additional regulations shall also apply to that sign:

a. No illuminated off-premises sign which changes in color or intensity of artificial light at any time while the sign is illuminated shall be permitted.

b. No illuminated on-premises sign which changes in color or intensity of artificial light at any time while the sign is illuminated shall be permitted, except one for which the changes are necessary for the purpose of correcting hour-and-minute, date, temperature information or in Commercial zoning districts a digital sign is allowed to change its message once every six seconds. Each change of message shall be accomplished in one second or less.

c. A sign that regularly or automatically ceases illumination for the purpose of causing the color or intensity to have changed when illumination resumes shall fall within the scope of the prohibitions of subsections (a) and (b) of this section.

d. The scope of prohibitions of subsection (c)(6) of this section include, but are not limited to, any sign face that includes a video display, LED lights that change in color or intensity, "digital ink," and any other method or technology that causes the sign face to present a series of two or more images or displays.

d) Construction and maintenance standards.

(1) All signs, supports and accessories and construction shall meet applicable state building codes and the Uniform Sign Code and the Uniform Building Code as published by the International Conference of Building Officials, to ensure that the signs and their construction are structurally sound and safe.

(2) Sign display surfaces shall be properly coated or covered, attached and maintained.
(3) Off-premises signs shall contain the sign owner's name, address and phone number in the lower left corner on the back of the sign. It must be visible and readable by a person standing on the ground without using magnification.

(4) All signs using electric power shall have a cutoff switch on the outside of the sign and on the outside of the building or structure to which the sign is attached.

(5) All signs, supports and accessories shall be maintained in good repair.

(6) When any use is discontinued for a period of 180 consecutive days, all signs and sign supports relating to that use shall be removed.

(7) Signs that do not carry fully readable messages are in structural disrepair or damaged and are left without repair for 60 consecutive days shall be removed.

(e) Sign maintenance and repair.

(1) Signs and their structural components may be maintained or repaired with a land use permit for sign maintenance and repair, provided there is no enlargement or alteration to the sign, mounting devices or structural components of the sign.

(2) A permit is not required if the only change is to a sign's message or copy, provided there is no enlargement or alteration to the sign or structural components of the sign. This does not relieve the owner of the need to comply with every applicable legal requirement other than the duty to obtain a permit.

(f) Overlay districts.

(1) Signs in the overlay districts are allowed subject to the standards and permitting requirements of the underlying zoning district.

(2) An on-premises sign in the shoreland overlay districts under chapter 45, pertaining to shoreland regulations, is allowed subject to the following additional standards:

a. A land use permit for signage is required for all permanent signs.

b. Any sign visible from the water shall be set back to meet the setbacks from the ordinary high-water mark (OHWM).

c. Maximum area of any such sign on a riparian lot shall be 32 square feet, unless in a Commercial zoning district then the maximum sign area shall be determined based on other standards in this chapter.

(3) An on-premises sign in the floodplain district is allowed subject to the following additional standards:

a. A land use permit for signage is required for all permanent signs.

b. Any sign in a designated floodplain boundary shall be subject to all provisions of the county floodplain ordinance codified in chapter 22.

(Land Use Pamphlet, § 5.0(C))

Sec. 30-525. - Sign types.

(a) Signs permitted by zoning district. The following tables identify the signs allowed in each zoning district, and the circumstances in which certain types of signs are permitted if those signs are not prohibited as set forth in section 30-523(f), satisfy all other applicable regulations set forth in sections 30-523 and 30-524 and satisfy the specific requirements that are identified by sign type in subsections (b), (c), (d) and (e) of this section.

### Permanent on-premises signs

1. **A = Allowed without permit but subject to compliance with all other applicable regulations of this section.**

2. **(b) Permanent on-premises signs.**

3. **(1) Permanent on-premises signs that are not prohibited as defined in section 30-523(f) are permitted subject to the standards in this section, if those signs satisfy all other applicable regulations set forth in section 30-524, and standards specific to the zoning district in which they are located as set forth in subsection (a) of this section and below.**

4. **(2) A permanent on-premises sign is allowed on residential property in the A Exclusive Agriculture, A-1 Agricultural Transition, A-2 and A-3 Agricultural Residential, A-4 Agriculture Forestry Residential, and RR-1, 2, 3 Residential Recreational zoning districts subject to the following additional standards:**

   a. No permit is required.

   b. One sign per lot or parcel.

   c. Maximum area of any such sign shall be six square feet.

   d. Maximum height shall be six feet.

   e. Any such sign shall be a freestanding design.

   f. Any such sign shall not be illuminated.

5. **(3) A permanent on-premises sign is allowed on property used for nonresidential uses legally allowed or permitted in the A Exclusive Agriculture, A-1 Agricultural Transition, A-2 and A-3 Agricultural Residential, A-4 Agriculture Forestry Residential, and RR-1, 2, 3 Residential Recreational zoning districts subject to the following additional standards:**

   a. A land use permit for signage is required.

   b. One sign per road or highway frontage.

   c. Maximum area of any such sign shall be 32 square feet per sign.

   d. Any such sign area shall not exceed 64 square feet in aggregate.

   e. Maximum height shall be six feet in the Residential and 12 feet in the Agricultural zoning districts.

   f. Any such sign shall be a monument or freestanding design.

6. **(4) A permanent on-premises sign is allowed in the AP Airport, C-1 Commercial, F-1 Forestry, I-1 Industrial, SW-1 Shoreland Wetland, and W-1 Resource Conservation zoning districts subject to the following additional standards:**

   a. A land use permit for signage is required.
b. One sign per road or highway frontage. Except parcels that have over 800 ft of road frontage, in the Commercial zoning district only, are allowed one additional sign.

c. Maximum area of any such sign shall be 80 square feet per sign.

d. Any such sign area shall not exceed 120 square feet in aggregate.

e. Maximum height shall be 20 feet.

f. Any such sign shall be a freestanding design.

(5) A permanent on-premises building sign on a building used for agricultural, commercial or industrial purposes is allowed subject to the following additional standards:

a. A land use permit for signage is required.

b. Any number of signs may be installed on a building wall or window.

c. The total area of all building signs on any face shall not exceed ten percent of the area of the façade, including wall and window, with a maximum allowable sign area of 80 square feet per face and 240 square feet in total for buildings with a footprint under 20,000 square feet. For buildings with a footprint of 20,000 square feet or larger the total area of all building signs on any face shall not exceed ten percent of the area of the façade, including wall and window, with a maximum allowable sign area of 240 square feet per face and 360 square feet in total.

d. The allowable area of building signs for multitenant buildings with individual entrances from the outside shall be calculated based on the exterior wall/window area of the space the tenant occupies. Each tenant frontage shall be considered a separate wall/window.

e. The allowable area of building signs for a parcel with multiple buildings shall not exceed 240 square feet in total if all buildings have a total footprint under 20,000 square feet and shall not exceed 360 square feet in total if all buildings have a total footprint of 20,000 square feet or larger.

f. Auxiliary canopies are allowed building signs based on the surface area of the canopy (vertical surface below the roof line).

g. Location.

1. Building signs may be placed on not more than three walls/windows of rectangular shaped structures or not more than 75 percent of the major walls/windows on nonrectangular shaped structures.

2. Signs may be attached flat against or pinned away from a building wall/window, but shall not extend or protrude more than 18 inches from the wall/window.

3. Signs may be attached to the facade of a building, but shall not extend above the roofline.

4. Signs may be on a building canopy, awning or marquee. Such sign will be considered a building sign on the wall, canopy, marquee or awning on which it is attached.

(6) A permanent area or neighborhood sign on property used for residential, commercial or industrial uses is considered an on-premises sign under this section if it does no more than identify that area or neighborhood, and is allowed subject to the following additional standards:
a. A land use permit for signage is required.
b. No more than one sign is allowed for every road or highway entrance to a development.
c. The maximum area of any such sign shall be 32 square feet per sign.
d. Any such sign shall be set back at least ten feet from the right-of-way, unless incorporated into a county-approved entrance design.
e. Any such sign shall be a freestanding design.
f. Any such sign shall not be internally lighted.

(7) A permanent sign on property on which agricultural products are legally grown and legally offered for sale is considered an on-premises sign under this section if it does no more than draw attention to a product legally offered on the premises, and is allowed subject to the following additional standards:
a. One sign per road or highway frontage.
b. Maximum area of any such sign shall be 32 square feet per sign.
c. Maximum cumulative sign area per sale location shall be 64 square feet.
d. Maximum height shall be 12 feet.
e. Any such sign shall be a freestanding design.
f. Any such sign shall not be illuminated.
g. Agricultural products shall be produced on the site.
h. Signs for seasonal roadside stands shall be placed when products are available.

(8) A permanent sign on property on which a home occupation is taking place is considered an on-premises sign under this section if it does no more than draw attention to a product or service lawfully offered on the premises, and is allowed subject to the following additional standards:
a. One sign per home occupation, exterior or interior visible from the outside.
b. Home occupation sign maximum area shall be six square feet.
c. Maximum height shall be six feet.
d. Any such sign shall be a freestanding design.
e. Any such sign shall not be illuminated.

(9) A permanent on-premises directional sign is allowed in any zoning district subject to the following additional standards:
a. A land use permit for signage is required.
b. A maximum of two signs for each place with two driveways may be displayed. For purposes of this subsection, one business, farm or organization shall constitute only one place.
c. Maximum area of any such sign shall be two square feet per sign at a controlled intersection or on a two-lane road or highway or four square feet per sign on a multilane highway.
d. Maximum height shall be six feet for the residence and agricultural residential zoning districts and 12 feet for any other zoning district.
e. Any such sign shall be a freestanding design.
f. Signs shall be placed outside the right-of-way. In no case shall any part of the sign or its structural components be located within the right-of-way.
g. To ensure that the sign serves only a directional purpose, it shall contain only the name of a place and direction arrow to the place and may not also be used to advertise.

(c) Permanent off-premises directional signs.

(1) A permanent off-premises directional sign is allowed in any zoning district subject to the following additional standards:

a. A land use permit for signage is required for each sign pole or support structure.

b. There shall be no more than one sign pole or support structure per each 500 linear feet of frontage on a road or highway.

c. Signs shall be co-located and stacked on a single support structure where possible.

d. A maximum of two signs for each place may be displayed per sign structure. For purposes of this subsection, one business, farm, residence or organization shall constitute only one place.

e. Maximum area of any such sign shall be two square feet per sign at a controlled intersection or on a two-lane road or highway or four square feet per sign on a multilane highway.

f. Maximum height shall be 12 feet.

g. Maximum width of any such sign shall be four feet per sign.

h. Signs shall be placed outside and may abut the right-of-way. In no case shall any part of the sign or its structural components be located within the right-of-way.

i. To ensure that the sign serves only a directional purpose, it shall contain only the name of a place, business or facility, distance and direction arrow to the place, business or facility and may not also be used to advertise. See examples in this subsection.

j. Any such sign shall be a freestanding design.

k. All signs on a pole or support structure shall have a similar background with white or black text.

l. All sign designs shall maintain consistency in design standards.

m. All signs shall have a minimum side setback of 2 feet.

(2) All signs placed off-premises shall have the property owner's permission.

Sample C. Mixed stacked signs.
(d) Temporary on-premises signs.

(1) Any sign that will exceed the permitted timeframe will require a land use permit for signage.

(2) The following temporary signs are permitted to be placed on the lot or parcel to which they refer without a land use permit for signage, subject to the applicable standards:

a. A temporary on-premises sign on a construction site is allowed in any zoning district, subject to the following additional standards:
   1. Maximum of two signs per construction site.
   2. Any such sign area shall not exceed 80 square feet in aggregate.
   3. Maximum height shall be 12 feet.
   4. Any such sign shall be a freestanding design.
   5. Any such sign shall be removed within seven days of when construction is completed.

b. A temporary on-premises sign erected on a nonresidential development project, or erected on a residential development project at the time that the development includes ten or more dwelling units for sale or lease, is allowed in any zoning district subject to the following additional standards:
1. One sign per road or highway frontage for each project.
2. Maximum area of any such sign shall be 64 square feet.
3. Maximum height shall be 12 feet.
4. Any such sign shall be a freestanding design.
5. A sign shall be at least 200 feet from any preexisting residence.
6. A sign shall not be installed until construction has started or the project is approved by the county.
7. Sign shall be removed when the project is 80 percent completed, sold or leased.

c. A temporary on-premises real estate sign for the sale, rent or lease of property is allowed in any zoning district subject to the following additional standards:
1. One sign per road or highway frontage.
2. For residential property, the maximum sign area shall be six square feet and maximum sign height shall be six feet.
3. For residential property, the maximum sign area for a parcel including a model home shall be 32 square feet and the maximum sign height shall be 12 feet.
4. For nonresidential property, the maximum sign area shall be 32 square feet and maximum sign height shall be 12 feet.
5. Any such sign shall be a freestanding design.
6. Any such sign shall be removed within seven days following the sale or lease of the property.

d. A temporary on-premises sign on nonresidential property for which one or more positions of employment are open is allowed subject to the following additional standards:
1. One sign per road or highway frontage.
2. Maximum area of any such sign shall be six square feet.
3. Maximum height shall be six feet.
4. Any such sign shall be removed when all positions of employment on the property have been filled.

e. A temporary on-premises sign on property to be used for a special event is allowed in any zoning district, subject to the following additional standards:
1. One sign per road or highway frontage.
2. Maximum height shall be 12 feet in the residence and agricultural residential zoning districts and 20 feet in any other zoning districts.
3. Maximum area of any such sign shall be 32 square feet.
4. Signs may be displayed for not more than 15 days per event or 45 days per calendar year.
5. If a sign is displayed on residential property one banner or one freestanding sign is allowed for each event.
6. If a sign is displayed on nonresidential property, any combination of two banners or freestanding signs, with a total sign area of 64 square feet, is allowed for each event.
7. Signs shall only be placed before and during event and shall be removed 24 hours after completion of the event.
(e) **Temporary off-premises signs.** A temporary off-premises directional sign is allowed in any zoning district, subject to the following additional standards:

1. A maximum of three signs for each event or activity may be displayed.
2. All signs placed off-premises shall have the property owner's permission.
3. Maximum area of any such sign shall be six square feet.
4. Maximum height shall be six feet.
5. Signs shall be placed outside and may abut the right-of-way.
6. Signs shall only be placed during the event and up to 48 hours before and 24 hours after the completion of the event.
7. Any such sign shall be a freestanding design.
8. To ensure that the sign serves only a directional purpose, it shall contain only the name of a place, date, time, distance and direction arrow to the place and may not also be used to advertise.

(Land Use Pamphlet, § 5.0(D))

Sec. 30-526. - Administration.

(a) **Nonconforming signs.**

1. Nonconforming permanent freestanding signs larger than 80 square feet, lawfully existing on January 21, 2009, shall be allowed to continue in use, but shall not be altered other than to change the message, relocated, added to, or repaired in excess of 50 percent of the assessed value of the sign, without being brought into compliance with this section.
2. Nonconforming permanent building signs lawfully existing on January 21, 2009, shall be allowed to continue in use, and may be repaired provided the repair does not increase the nonconforming aspect of the sign, but shall not otherwise be altered other than to change the message, relocated, or added to, without being brought into compliance with this section.
3. After a nonconforming sign has been removed, it shall not be replaced by another nonconforming sign.
4. Nonconforming temporary signs lawfully existing on January 21, 2009, shall be removed no later than three years after January 21, 2009, or by an earlier date if so required by a regulation in place when the sign was erected. Nonconforming temporary signs shall not be rebuilt, relocated or altered other than to change a message.
5. If a nonconforming permanent sign's use is discontinued for a period of 12 months, the nonconforming sign shall be removed or brought into compliance with this section within 60 days of notification by the zoning administrator.
6. If a nonconforming temporary sign's use is discontinued for 60 consecutive days, the nonconforming sign shall be removed or brought into compliance with this section within 60 days of notification by the zoning administrator.
7. Nonconforming permanent freestanding signs 80 square feet or smaller, lawfully existing on January 21, 2009, can be allowed to be reconstructed, or repaired, without being brought into compliance with this section. However the sign shall not increase in size and height, the sign must not be within a road right-of-way, and the property owner must obtain a county permit prior to reconstruction or repair. Any other required permits must also be obtained prior to reconstruction or repair. If no county sign permit is obtained prior to reconstruction then the sign is not allowed.
(b) Permit required. A land use permit for signage is required prior to the improvement, erection, construction, reconstruction, enlargement or alteration of any sign, structural component or mounting device unless otherwise provided by this section.

(c) Land use permit for signage. A properly completed application for a land use permit for signage shall be made to the zoning administrator upon forms furnished by the county. The following information shall be provided:

(1) Applicant contact information.
(2) Property owner contact information.
(3) Property information, site address, legal description, tax identification number, zoning district.
(4) Project information including a description of the sign plan for the site and total proposed signage, including all permanent and temporary signage.
(5) A site plan, drawn to scale, to include:
   a. Dimensions and area of the lot or parcel.
   b. Location of all existing and proposed structures and signs with distances measured from the lot lines and right-of-way of all abutting roads or highways.
   c. In the shoreland and floodplain districts, location of the OHWM of any abutting navigable waterways, floodplain, floodway and flood-fringe limits as determined from floodplain zoning maps used to delineate floodplain areas.
   d. Location of existing or future access driveways and roads or highways.
   e. Location of all existing and proposed structures and signs with distances measured from any wetlands within 100 feet of the site.
(6) Conceptual drawings of all proposed signs with dimensions.
(7) Information on all lighting and electrical components.
(8) Method of construction and/or attachment to a building or in the ground shall be explained in the plans and specifications.
(9) Contact information for whoever will be erecting the signs.
(10) Attach all related permits or permit applications.
(12) Additional relevant information deemed necessary by the zoning administrator to apply all applicable ordinance requirements and standards, such as photos, cross section drawings, specialized engineering plans and landscaping.
(13) If additional information is requested, the application shall not be considered a properly completed application and timeframes for processing shall not commence until the additional information is received.

(d) Permit decision and appeal process.

(1) A land use permit for signage applicant or permit holder may appeal a determination or an order. Appeal procedures are established in article XI of this chapter, pertaining to the board of adjustment.
(2) When a permit of any kind is required for a sign, the zoning administrator shall deny, approve with conditions, or approve without conditions such permit in an expedited manner no more than
30 days from the receipt of a complete application for such a permit, including the applicable fee.

a. If the permit is denied or approved with conditions, the county shall prepare a written decision, stating a reason or reasons for the action and describing the applicant’s appeal rights under article XI of this chapter, pertaining to the board of adjustment, and provide it to the applicant.

b. When the board of adjustment receives an appeal it shall hear such appeal and take action subject to the county board of adjustment rules and bylaws and Wis. Stats. § 59.694.

c. If the appeal is denied or approved with conditions, the county shall prepare a written decision within ten days of its decision, stating a reason for the action and provide it to the applicant.

(3) When a permit of any kind is required for a sign, and the permit application or permit appeal demonstrates that the sign would comply with all applicable requirements of this section, the permit application or permit appeal shall not be denied.

(e) Expiration.

(1) Sign maintenance or construction authorized by a land use permit for signage issued under this section shall be completed within one year, after which time the permit expires.

(2) Prior to expiration of a permit, applicants can request one extension of one year from the zoning administrator.

(f) Permit revocation. Where the terms or conditions on any land use permit for signage are violated, the permit may be revoked by the zoning administrator.

(Land Use Pamphlet, § 5.0(E))

Secs. 30-527—30-534. - Reserved.

ARTICLE V. - REGULATION OF SPECIAL USES/CONDITIONAL USES

Sec. 30-538. - General provisions.

Except as added to or hereafter altered in this article, the procedures and requirements of article VIII of this chapter governing conditional uses shall apply.

(Land Use Pamphlet, § 6.1)

Sec. 30-539. - Quarries and mines.

(a) Application required. Application requesting county land use and information committee approval of a proposed quarrying activity shall be accompanied by:

(1) A description of all phases of the contemplated operation including types of machinery and equipment, which will or might be necessary to carry on the operation. Where the operation is to include sand and gravel washing, the estimated daily quantity of water required, its source and its disposition shall be identified.

(2) A legal description of the proposed site.

(3) A restoration plan as hereinafter required.

(b) Consideration of compatibility. In reviewing a proposal for a quarrying activity, the county land use and information committee shall take into consideration:
(1) The effect of the proposed operation on drainage and water supply, particularly in connection with sand and gravel washing.

(2) The possibility of soil erosion as a result of the proposed operation.

(3) The most suitable land use for the area.

(c) **Restoration plan and financial guarantee required.** No grant to carry on a quarrying operation shall be given until the applicant complies with all requirements of chapter 32, pertaining to nonmetallic mining, and Wis. Admin. Code ch. NR 135.

(d) **Conditions for approval.** The county land use and information committee may set forth conditions regarding appropriate setback and other dimensional requirements, particularly with reference to avoiding a nuisance effect on surrounding residential uses. Suitable fencing and landscaping may be required.

(e) **Existing quarry operations.** Existing quarries shall be limited to registered areas and be subject to chapter 32, pertaining to nonmetallic mining, and Wis. Admin. Code ch. NR 135.

(Land Use Pamphlet, § 6.2)

Sec. 30-540. - Salvage yards.

No salvage yard as defined herein shall be permitted in the county except in conformance with the standards, rules and regulations of the Wisconsin Administrative Code and the requirements herein specified.

(1) **Application required.** An application is required prior to issuance of a conditional use permit for a salvage yard. This application requesting county land use and information committee approval of a proposed salvage yard activity shall be accompanied by:

   a. A description of all phases of the contemplated operation including types of machinery and equipment, which will or might be necessary to carry on the operation.

   b. A legal description of the proposed site.

   c. A location map showing all adjacent land use.

(2) **Consideration of compatibility.** In reviewing a proposal for a salvage yard, the county land use and information committee shall take into consideration:

   a. The effect of the proposed operation on existing land uses.

   b. The possibilities of noise, smoke, dust and other factors common to a salvage yard.

   c. The most suitable land use for the area.

(3) **Conditions for approval.** The county land use and information committee may set forth conditions regarding appropriate setback and other dimensional requirements, particularly with reference to avoiding a nuisance effect on surrounding residential uses.

   a. All salvage yards shall have minimum front, side and rear yards of 100 feet.

   b. Salvage yards shall be screened in accordance with article VII of this chapter.

(4) **Existing salvage yard operations.**

   a. Within 60 days after the effective date of the ordinance from which this chapter is derived, the owners of all existing salvage yard operations shall submit to the county land use and information committee the names of the salvage yard owners and operators and information regarding its operation. This shall include all persons possessing salvageable materials excepting those stored within the confines of a building.
b. Within one year after adoption of the ordinance from which this chapter is derived, the owners shall submit to the county land use and information committee a plan for making their salvage yard comply with the provisions of this chapter.

c. Within two years after the effective date of the ordinance from which this chapter is derived, any such existing operation shall be subject to the provisions.

Land Use Pamphlet, § 6.3

Sec. 30-541. - Garbage and refuse disposal sites.

(a) No garbage or refuse disposal sites shall be permitted in the county except in conformance with the rules and regulations of Wisconsin Administrative Codes.

(b) All such disposal sites shall have a minimum front, side and rear yards of 100 feet each.

(c) Garbage and refuse disposal sites shall be screened in accordance with article VII of this chapter.

Land Use Pamphlet, § 6.4

Sec. 30-542. - Mobile home/manufactured home parks.

Except as otherwise specifically authorized, no mobile home intended for occupancy shall be located in the county except in a mobile home/manufactured home park, the plan of which has been approved by the county land use and information committee. Such parks shall meet the following requirements:

1. Minimum size, five acres.

2. Maximum number of mobile home/manufactured home sites, six per developable acre.

3. Minimum width of a mobile home/manufactured home site, 40 feet.

4. Maximum height of a mobile home/manufactured home, 20 feet. Height is measured as shown in chapter 45 of the Burnett County ordinances.

5. The distance between separate mobile homes/manufactured homes shall not be less than 30 feet.

6. Minimum distance between mobile home/manufactured home and service road, ten feet.

7. All drives, parking areas and walkways shall be hard surfaced. There shall be one parking space for each mobile home/manufactured home and additional parking spaces for automotive vehicles within the park, totaling not less than 1¼ parking spaces for each mobile home/manufactured home space.

8. No mobile home/manufactured home sales office or other business or commercial use shall be located on the mobile home/manufactured home park site. However, laundries, washrooms, recreation rooms, maintenance equipment storage and one office are permitted.

9. Minimum side yard setback, 40 feet at all front, side and rear lot lines of the mobile home/manufactured home park.

10. Each mobile home shall be placed on a mobile home stand. The stand should provide for practical placement on and removal from the lot of the mobile home and retention of the home on the lot in a stable condition and in satisfactory relationship to its surroundings. The size of a development will be acceptable if it is suitable for the general market to be served by the individual proposal and fits the dimensions of mobile homes anticipated. The location of each mobile home stand shall be at such elevation, distance and angle in relation to the access street and the mobile home accessway that placement and removal of the mobile home is practical.
Appropriate material, properly graded, placed and compacted so as to be durable and adequate for the support of the maximum anticipated loads during all seasons should be used.

(11) All mobile home/manufactured home parks shall be screened in accordance with article VII of this chapter.

(12) All mobile homes/manufactured homes shall meet the required construction standards.

(13) Mobile home/manufactured home parks shall comply with the sanitation regulations of the county sanitary code and the appropriate requirements of the Wisconsin Administrative Codes.

(14) Each manufactured home shall be placed on a foundation meeting the appropriate requirements of the Wisconsin Administrative Codes.

(15) A land use dwelling permit from Burnett County must be obtained prior to replacing, rebuilding or structurally altering a mobile home/manufactured home.

(Land Use Pamphlet, § 6.5)

Sec. 30-543. - Campgrounds.

(a) Definitions. The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Awning means a covering used by campers for protection from the weather and may be used over a deck. An awning shall only be attached to the camping unit.

Camping unit means a portable vehicle or unit less than 400 square feet designed for and used in the pastime of camping.

Deck/patio means a platform which is intended to support persons/chattels.

Screen house means a structure with a roof and sides, with or without a floor, with at least 50 percent of each exposed wall covered by screen for protection from insects. There shall be no solid material (glass, wood, metal or rigid plastic material) in front of or behind the sides to impede the free movement of air through the screen. A temporary covering of canvas or flexible plastic material is permitted for protection from the weather.

Storage structure means a structure intended for storage purposes only; not to be used for human habitation. The structure footprint shall not exceed 100 square feet. The structure height shall not exceed 12 feet.

Tent means a portable sleeping shelter made of canvas or other materials and supported by poles or framework.

(b) Storage of a camping unit must meet all setback requirements. Prior PUD’s with camping units are allowed to continue under the specific conditions for the PUD.

(1) Campground requirements.

a. Must meet all Wis. Admin. Code ch. ATCP 79 requirements which are enforced by the state personnel or their designated agent, all sanitary requirements of the county sanitary ordinance and Wisconsin Administrative Codes, and any other applicable county, state and federal codes.

b. Minimum size of five acres.

c. Maximum number of sites shall be ten per developable acre.
d. Each site shall be clearly numbered and consistent with the placement shown on the campground map.

e. A campground map shall be placed on file in the zoning office and shall include the campground layout, location of campsites, roads, property lines, required setbacks, structures, water supplies, private waste disposal system, recreation areas and any other information the land use and information committee shall deem necessary. Any proposed changes in the approved campground shall be presented to the zoning office for approval. No implementation of the proposed change shall take place until written approval is received from the zoning office.

f. Each site shall have sufficient area for one vehicle parking on that site.

g. Each camping unit shall meet the setback requirements of 75 feet to the ordinary high-water mark of any navigable water and there shall be a minimum 50-foot setback from all exterior lot lines to each camping unit or storage structure or deck/patio. All other setback requirements of this chapter and other Burnett County Ordinances along with any other federal, state or local codes shall apply. The land use and information committee may require additional setback requirements as per conditional permit.

h. Screening provisions of article VII of this chapter shall apply where the land use and information committee determines they are needed.

i. Individual site accessory uses require a land use permit and are limited to:

1. **Storage structure.** Each site may be provided with a storage structure with a footprint not to exceed 100 square feet and the structure height shall not exceed 12 feet. The storage structure shall not be used for human habitation. This structure must meet floodplain requirements from Chapter 22 of the Burnett County Ordinances.

2. **Awnings, decks/patios and screen houses.** Awnings, decks/patios and screen houses will be permitted provided they do not exceed the unit size in square feet and in any event the total area of these uses shall not exceed 200 square feet. These structures must meet floodplain requirements.

j. A separate area may be designated in a campground for group camping in tents; however, such group camping shall not exceed two weeks in any one time period and no more than 20 tent units per acre shall be permitted. In addition, the group camping area must be provided with proper sanitary provisions as required by Wis. Admin. Code ch. ATCP 79.

k. A campground may have a home and accessory buildings for the one owner’s or one manager’s private use.

l. Campgrounds shall not be expanded except by conditional permit review.

m. Requires a conditional use permit from the county if any of the following apply:

1. A person offers or intends to offer 3 or fewer campsites and advertises or otherwise presents to the public an offer of the campground or specific campsites.

2. A person offers or intends to offer 4 or more campsites, regardless whether the person advertises or otherwise presents to the public an offer of the campground or specific campsites.

(Land Use Pamphlet, § 6.6)

Secs. 30-544—30-566. - Reserved.

ARTICLE VI. - TELECOMMUNICATIONS FACILITIES
Sec. 30-567 - Purpose.

The purpose of this article is to regulate by zoning permits (1) the siting and construction of any new mobile service support structure and facilities; (2) with regard to a class 1 collocation, the substantial modification of an existing support structure and mobile service facilities; and (3) with regard to a class 2 collocation, collocation on an existing support structure which does not require the substantial modification of an existing support structure and mobile service facilities.

(Res. No. 2014-11, 5-22-2014)

Sec. 30-568 - Exemptions.

(a) Exempt from review under this article will be television antennas, satellite dishes one meter (or 39 inches) in diameter or less, satellite dishes used commercially and three meters in diameter or less, receive only antennas, amateur radio facilities, and mobile services providing public information coverage of news events or of a temporary or emergency nature. None of these items can exceed 75 feet in height, without obtaining proper permits and approvals.

(b) Exempt from the permitting requirements of this article will be satellite dishes more than one meter in diameter, ground-mounted antennas not exceeding 75 feet in height, building-mounted antennas not exceeding 25 feet above the highest part of the building to which they are attached (also can’t exceed 75 feet in total height as measured from the lowest building grade to the highest portion of the antenna), utility pole-mounted antennas not exceeding 75 feet in height in total height as measured from the lowest grade to the highest portion of the antenna.

(c) Exempt structures under this article are still subject to all other applicable provisions of the Land Use/Zoning Ordinance such as setbacks.

(Res. No. 2014-11, 5-22-2014)

Sec. 30-569 - Definitions.

(a) The following definitions shall apply to this division unless the context dictates otherwise. All definitions in section 30-4 of this chapter shall apply, unless specifically defined in this article.

*Alternative support structure* means structures, including, but not limited to, clock towers, steeples, silos, light poles, water towers, freestanding chimneys, utility poles and towers, towers, buildings or similar structures that may support telecommunications facilities.

*Antenna* means any system of wires, poles, rods, reflecting discs, or similar devices used for the transmission or reception of electromagnetic waves when such system is either external to or attached to the exterior of a structure. Antennas shall include devices having active elements extending in any direction, and directional beam-type arrays having elements carried by and disposed from a generally horizontal boom that may be mounted upon and rotated through a vertical mast or tower interconnecting the boom and antenna support, all of which elements are deemed to be a part of the antenna.

*Antenna, building mounted* means any antenna, other than an antenna with its supports resting on the ground, directly attached or affixed to a building.
Antenna, ground mounted means any antenna with its base placed directly on the ground.

Camouflaged tower means any telecommunications tower that due to design or appearance hides, obscures, or conceals the presence of the tower and antennas. Camouflaging may be accomplished by a suitable combination of the following examples: lack of lighting, low tower height, non-contrasting colors, screening and landscaping, and others.

Carrier means companies licensed by the Federal Communications Commission (FCC) to build personal wireless telecommunications facilities and operate personal wireless telecommunications services. Also called a provider.

Class 1 Collocation means the placement of a new mobile service facility on an existing support structure such that the owner of the facility does not need to construct a freestanding support structure for the facility, but does need to engage in substantial modification.

Class 2 collocation means the placement of a new mobile service facility on an existing support structure such that the owner of the facility does not need to construct a freestanding support structure for the facility or engage in substantial modification.

Co-location means a telecommunications facility comprised of a single telecommunications tower or building supporting multiple antennas, dishes, or similar devices owned or used by more than one public or private entity.

Guyed structure means a telecommunications tower that is supported in whole or in part by guy wires and ground anchors or other means of support besides the superstructure of the tower itself.

Height, telecommunications tower means the distance measured from the original grade at the base of the tower to the highest point of the tower. This measurement excludes any attached antennas and lighting.

Lattice structure means a telecommunications tower that consists of vertical and horizontal supports and crossed metal braces.

Monopole structure means a telecommunications tower of a single pole design.

Operation means other than nominal use; when a facility is used regularly as an integral part of an active system of telecommunications, it shall be deemed in operation.

Provider. See Carrier.

Satellite dish means a device incorporating a reflective surface that is solid, open mesh, or bar configured that is shallow dish, cone, horn, or cornucopia shaped and is used to transmit or receive electromagnetic signals. This definition is meant to include, but is not limited to, what are commonly referred to as satellite earth stations, TVROs and satellite microwave antennas.

Substantial modification means the modification of a mobile service support structure, including the mounting of an antenna on the structure that does any of the following:

1. For structures with an overall height of 200 feet or less, increases the overall height of the structure by more than 20 feet.
2. For structures with an overall height of more than 200 feet, increases the overall height of the structure by ten percent or more.
3. Measured at the level of the appurtenance added to the structure as a result of the modification, increases the width of the support structure by 20 feet or more.
4. Increases the square footage of an existing equipment compound to a total area of more than 2,500 square feet.

Telecommunications facility means a facility, site, or location that contains one or more antennas, telecommunications towers, alternative support structures, satellite dish antennas, other similar communication devices, and support equipment which is used for transmitting, receiving, or relaying telecommunications signals, excluding facilities exempted under section 30-568.
**Telecommunications facility structure** means a telecommunications tower or alternative support structure on which telecommunications antenna(s) may be mounted.

**Telecommunications tower** means any structure that is designed and constructed primarily for the purpose of supporting one or more antennas, including camouflaged towers, lattice towers, guy towers, or monopole towers. This includes radio and television transmission towers, microwave towers, and common-carrier towers. It shall exclude alternative support structures and those facilities exempted under section 30-568.

**Utility pole-mounted antenna** means an antenna attached to or upon an existing or replacement electric transmission or distribution pole, streetlight, traffic signal, athletic field light, or other approved similar structure.

(b) Additional definitions contained in § 66.0404(1) are hereby incorporated by reference.

(Res. No. 2014-11, 5-22-2014)

Sec. 30-570. - Siting and construction of any new mobile service support structure and facilities and class 1 collocation.

(a) Application process.

(1) A land use permit is required for the siting and construction of any new mobile service support structure and facilities.

(2) A written permit application must be completed by any applicant and submitted to the Burnett County Land Services Department. The application must contain the following information:

a. The name and business address of, and the contact individual for, the applicant.

b. The location of the proposed or affected support structure.

c. The location of the proposed mobile service facility.

d. If the application is to substantially modify an existing support structure, a construction plan which describes the proposed modifications to the support structure and the equipment and network components, (including antennas, transmitters, receivers, base stations, power supplies, cabling, and related equipment associated with the proposed modifications).

e. If the application is to construct a new mobile service support structure, a construction plan which describes the proposed mobile service support structure, equipment, and network components, (including antennas, transmitters, receivers, base stations, power supplies, cabling, and related equipment placed on or around the new mobile service support structure).

f. If an application is to construct a new mobile service support structure, an explanation as to why the applicant chose the proposed location and why the applicant did not choose collocation, including a sworn statement from an individual who has responsibility over the placement of the mobile service support structure attesting that collocation within the applicant's search ring would not: result in the same mobile service functionality, coverage, and capacity; is technically infeasible; or is economically burdensome to the mobile service provider.

(3) A permit application will be provided by the county upon request to any applicant.

(4) If an applicant submitted to the county an application for a permit to engage in an activity described in this article, which contains all of the information required under this article, the county shall consider the application complete. If the county does not believe that the application is complete, the county shall notify the applicant in writing within ten days of receiving the application that the application is not complete. The written notification shall
specify in detail the required information that was incomplete. An applicant may resubmit an application as often as necessary until it is complete.

(5) Within 90 days of its receipt of a complete application, the county shall complete all of the following or the applicant may consider the application approved, except that the applicant and the county may agree in writing to an extension of the 90-day period:

a. Review the application to determine whether it complies with all applicable aspects of the county's land use, floodplain and airport height ordinances. Subject to limitations set by Wis. Stats. § 66.0404.

b. Make a final decision whether to approve or disapprove the application.

c. Notify the applicant, in writing, of its final decision.

d. If the application is disapproved, written notification with substantial evidence which supports the decision shall be included.

(6) The county may disapprove an application if an applicant refuses to evaluate the feasibility of collocation within the applicant's search ring and provide the sworn statement described under paragraph (2)f.

(7) If an applicant provides the county with an engineering certification showing that a mobile service support structure, or an existing structure, is designed to collapse within a smaller area than the setback or fall zone area required in a land use ordinance, that land use ordinance does not apply to such a structure unless the county provides the applicant with substantial evidence that the engineering certification is flawed.

(8) The fee for constructing new structure or facility, or class 1 collocation permit is $3000.00

(Res. No. 2014-11, 5-22-2014)

Sec. 30-571. - Class 2 collocation.

(a) Application process.

(1) A land use permit is required for a class 2 collocation.

(2) A written permit application must be completed by any applicant and submitted to the county. The application must contain the following information:

a. The name and business address of, and the contact individual for, the applicant.

b. The location of the proposed or affected support structure.

c. The location of the proposed mobile service facility.

(3) A permit application will be provided by the county upon request to any applicant.

(4) A class 2 collocation is subject to the same requirements for the issuance of a building permit to which any other type of commercial development or land use development is subject.

(5) If an applicant submits to the county an application for a permit to engage in an activity described in this article, which contains all of the information required under this article, the county shall consider the application complete. If any of the required information is not in the application, the county shall notify the applicant in writing, within five days of receiving the application, that the application is not complete. The written notification shall specify in detail the required information that was incomplete. An applicant may resubmit an application as often as necessary until it is complete.

(6) Within 45 days of its receipt of a complete application, the county shall complete all of the following or the applicant may consider the application approved, except that the applicant and the county may agree in writing to an extension of the 45-day period:
a. Make a final decision whether to approve or disapprove the application.
b. Notify the applicant, in writing, of its final decision.
c. If the application is approved, issue the applicant the relevant permit.
d. If the decision is to disapprove the application, include with the written notification substantial evidence which supports the decision.

(7) The fee for the permit is $500.00.

(Res. No. 2014-11, 5-22-2014)

Sec. 30-572. - Removal of abandoned telecommunications facilities.

It is the express policy of Burnett County that telecommunications facilities be removed and their sites restored to their pre-construction state once they are no longer in use and not a functional part of providing telecommunications service.

(1) Removal and restoration of such facilities is the responsibility of the owner of the facility.

(2) The telecommunications facility(s) shall be removed when use of the facility(s) has been discontinued or the facility not been used for its permitted purpose for 12 consecutive months. Mere intent to continue use of the facility(s) shall not constitute use. The applicant/owner shall demonstrate through facility(s), lease(s), or other similar instruments that the use will be continued without a lapse of more than 12 consecutive months to constitute actual use. If the applicant cannot demonstrate actual use, the facility shall be considered abandoned and shall be removed.

(3) This restoration shall include removal of any subsurface structure or foundation, including concrete, used to support the telecommunications facility; to a level of three feet below grade.

(4) Nothing in this section prevents the removal of the facility prior to expiration of the 12-month period.

(Res. No. 2014-11, 5-22-2014)

Sec. 30-573. - Reporting requirements.

Notification shall be provided to the land services department if any of the information changes in section(s) 30-570 or 30-571.

(Res. No. 2014-11, 5-22-2014)

Secs. 30-574—30-606. - Reserved.

ARTICLE VII. - SCREENING AND FENCING

Sec. 30-607. - General provisions.

Screening or fencing as required by this article shall be subject to the following provisions:

(1) Approval required. Any use or conditional use listed in this chapter requiring screening or fencing shall be permitted only when authorized by the county land use and information committee and subject to its approval of a screening or fencing plan for that particular use.

(2) Objective. Planting or other suitable screening including fences or freestanding walls shall be required where deemed necessary for screening or enclosure purposes by the county land use
and information committee, such as around outdoor storage yards and industrial property lines, salvage yards, refuse disposal sites, quarries and mines, mobile home parks, and trailer camps. Such provisions shall be required to the extent needed to provide for:

a. Screening of objectionable views.

b. Adequate shade.

c. Enclosure of storage materials.

d. Public health and safety.

e. A suitable setting for the particular use and other facilities.

(3) Extent.

a. Screen planting. Screen planting adequate to screen objectionable views effectively within a reasonable time; in some cases temporary screening devices may be required until suitable screen planting can be achieved.

b. Other planting. For mobile home parks and trailer camps other planting should be adequate in size, quantity and character to provide an attractive setting for the mobile homes, trailers and other improvements, to provide adequate privacy and pleasant outlooks for living units, to minimize reflected glare and to afford summer shade.

c. Existing planting. Existing planting acceptable as required planting to the extent that it is equivalent, suitable and preserved in good condition.

d. Fences and walls. Fences and walls appropriately designed for the function intended and shall be substantially constructed to withstand conditions of soil, weather and use.

e. Maintenance. All screenings, fences and walls required by this chapter shall be maintained so as not to provide an objectionable view by themselves.

(Land Use Pamphlet, § 7.1)
(2) **Basis of approval.** The county land use and information committee shall consider the effect of such grant on the health, general welfare, safety and economic prosperity of the county and of the immediate area in which such use would be located considering Wis. Stats. § 59.69(5e).

(3) **Conditions attached to conditional use permit.** Upon consideration of the factors as listed in subsection (b)(2) of this section, the land use and information committee may attach such conditions in addition to those required elsewhere in this chapter that it deems necessary in furthering the purpose of this chapter. Such conditions may include specifications for, without limitation because of specific enumeration: type of shorecover, increased setbacks and yards, specified sewage disposal and water supply facilities, parking and signs, type of construction, granting or denial of lake access and boat docks to off-lake developments. The committee may require, as a condition that a permit be first obtained from relevant state agencies having jurisdiction over the appropriate subject matter.

(Land Use Pamphlet, § 8.1)

Sec. 30-634. - Procedure.

(a) **Application.** Application for a conditional use permit shall be made to the county zoning administrator, who shall promptly refer the application to the county land use and information committee. In addition to the information required under article IX of this chapter for a land use permit, the county land use and information committee may require the applicant to submit other pertinent data and information necessary to properly evaluate the request.

(b) **Fees.** The fee for filing of applications for conditional use permits shall be established by the county board. A copy of the current fee schedule shall be kept on file in the office of the county zoning administrator.

(c) **Hearing.** The county land use and information committee shall schedule a public hearing on the application within 60 days after it is filed.

(d) **Determination.** The land use and information committee shall report its decision within 60 days after the hearing of the application. Its decision shall include an accurate description of the use permitted, of the property on which it is permitted, and all conditions made applicable thereto.

(e) **Mapping and recording.** When a conditional use permit is granted, an appropriate record shall be made of the land use and building permits and such grant shall be applicable solely to the structures, use and property so described.

(f) **Termination.**

(1) Where a permitted conditional use does not continue in conformity with the conditions of the original approval, the conditional use permit shall be terminated by action of the land use and information committee.

(2) The expiration for conditional land use permits, which have not been initiated, shall be the same as land use permit under section 30-658(c), unless the land use and information committee determines a different timeframe which shall not exceed 3 years. Initiated means obtaining a land use permit related to the activity, another county permit related to the activity, a state agency permit related to the activity, a federal agency permit related to the activity, or in the case of where no permits are needed for the activity then the activity must physically take place on the property.

(3) Conditional use permits shall continue as long as the use is in conformity with all conditions established at the time of the original approval, the use has not discontinued for 12 consecutive months, and the land use and information committee does not set an expiration date.

(Land Use Pamphlet, § 8.2)
Sec. 30-657. - Zoning administrator; duties and powers.

(a) Designation. The county land use and information committee shall appoint a county zoning administrator for the administration and enforcement of the provisions of this chapter.

(b) Duties. In administering and enforcing this chapter, the county zoning administrator and any of his/her deputies shall perform the following duties:

1. Develop and maintain a system of permits for new construction, development, reconstruction, structural alteration or moving of buildings and structures. A copy of applications shall be required to be filed in the office of the county zoning administrator.

2. Regularly inspect permitted work in progress to insure conformity of the finished structures with the terms of the ordinance.

3. Develop and maintain a variance procedure which authorizes the board of adjustment for land use variances and the land use and information committee for subdivision variances to grant such variance from the terms of the ordinance as will not be contrary to the public interest where, owing to special conditions and the adoption of the land use ordinance, a literal enforcement of the provisions of the ordinance will result in unnecessary hardship.

4. Develop and maintain a conditional use procedure.

5. Keep a complete record of all proceedings before the board of adjustment and the land use and information committee.

6. Develop and maintain an official map of all mapped zoning district boundaries, amendments, and recordings.

7. Establish appropriate penalties for violations of various provisions of the ordinance, including forfeitures. Compliance with the ordinance shall be enforceable by the use of injunctions to prevent or abate a violation, as provided in Wis. Stats. § 59.69(11).

8. Pursue the prosecution of violations of this ordinance.

9. Approve subdivision variance requests which appear to meet the intent of the Burnett County Ordinances. If the Zoning Administrator feels the subdivision variance request does not meet the intent of the Burnett County Ordinances then the subdivision variance shall be heard by the land use and information committee. A Certified Survey Map (CSM) or recorded plat will be required for each lot/parcel which is reconfigured as part of the subdivision variance and recorded with the Register of Deeds within one year of the approval.

10. The zoning administrator may issue a special permit to relax the standards of this ordinance in order to provide reasonable accommodations as required by provisions of federal and state law. Such relaxation shall be the minimum necessary to be consistent with federal guidelines for accommodation of persons with disabilities and shall, where practicable, be terminated when the facility is no longer used by the disabled person. A person applying for a permit for construction under this section shall establish the nature and extent of the disability and that the relaxation requested is the minimum necessary to provide reasonable use of the facility. A deed restriction for the reasonable accommodation shall be recorded with the register of deeds.

(c) Powers. The county zoning administrator and his/her duly appointed deputies shall have powers and authority including but not limited to the following:
Access to any structure or premises for the purpose of performing his/her duties by the
permission of the owner or upon issuance of a special inspection warrant.

Upon reasonable cause or question as to proper compliance, to revoke any land use permit
and issue cease and desist orders requiring the cessation of any building, moving, alteration or
use which is in violation of the provisions of this chapter.

(Land Use Pamphlet, § 9.1)

Sec. 30-658. - Land use permits.

(a) Permit required. No structure shall be built, moved, placed, or structurally altered until a land use
permit has been issued by the county zoning administrator. No land use shall be substantially altered
until a land use permit has been issued by the county zoning administrator. The zoning administrator
shall not issue a permit for a structure or a use not in conformity with the requirements of this chapter
or if any other land use violations exists on the property. Any permitted activity must comply with
any/all conditions of the permit. The fee for filing of applications for land use permits shall be
established by the county land use and information committee. A copy of the current fee schedule
shall be kept on file in the office of the county zoning administrator.

(b) Application procedure. Applications for land use permits shall be accompanied by scale maps or
drawings showing accurately the location, size and shape of the lots involved, and of any proposed
structures, including the relation to abutting streets and any abutting lakes or streams and the
existing and proposed use of each structure and lot, and the number of families to be
accommodated.

(c) Expiration. Land use permits for construction, alteration, or removal of structures shall expire 12
months from their date of issuance. If additional time is needed, a 12-month extension may be
granted upon written request to the county zoning administrator.

(d) Exceptions.

(1) A land use permit is not required in agricultural districts for farm buildings or farm structures not
intended for human habitation provided such structures meet the dimensional and setback
requirements of this chapter or any other chapters, except in floodplain areas as designated on
official floodprone area maps. Farm buildings/farm structures only include; shed, pole building,
barn, silo, windmill, silage structure, grain/crop storage structure, or manure storage system as
defined in Wis. Admin. Code ch. ATCP 50.62(1)(e). These structures must be 100 percent
agricultural use only to be exempt from needing a land use permit.

(2) A land use permit is not required for accessory buildings such as dog houses, tool sheds,
playhouses, etc., which do not exceed 100 square feet in size, provided that such meet the
dimensional and setback requirements of this chapter and any other federal, state, county
requirements.

(Land Use Pamphlet, § 9.2)

Sec. 30-659. - Enforcement and penalties.

(a) Any building or structure hereafter erected, moved or structurally altered or any use hereafter
established in violation of the provisions of this chapter by any person, firm, association, corporation
(including building contractors or their agent) shall be deemed an unlawful structure or use.

(b) The district attorney or corporation counsel may bring an action to enjoin, remove or vacate any
use, erection, moving or structural alteration of any building or use in violation of this chapter.

(c) Any person who violates this chapter may be subject to forfeitures as established by the county
citation ordinance codified in section 1-15. Each day of violation shall constitute a separate offense.
ARTICLE X. - NONCONFORMING USES AND STRUCTURES

Sec. 30-677. - Use of structures which are nonconforming.

The existing lawful use of a structure or premises which is compliant with shoreland setbacks, but is not in conformance with other provisions of the Burnett County Ordinances may be continued subject to the following conditions:

(1) No structural addition to any nonconforming structure over the life of the structure shall exceed 25 percent of its building envelope and may not increase the nonconformity, unless a variance permitting expansion beyond 25 percent of its building envelope is successfully obtained. Any repair, maintenance, renovation, rebuilding or remodeling of a nonconforming structure or any part of a nonconforming structure is allowed within the same structure envelope as long as a permit is obtained (if required) prior to the activity taking place.

(2) Discontinued nonconforming use. If a nonconforming use is discontinued for a period of 12 months, any future use of the building, structure or property shall conform to this chapter.

(3) Uses or adjuncts thereof which are nuisances shall not be permitted to continue as nonconforming uses.

Editor's note—Res. No. 2013-10, adopted April 16, 2013, changed the title of § 30-677 from "Use of structures" to "Use of structures which are not nonconforming to shoreland setbacks".

Secs. 30-678—30-697. - Reserved.

ARTICLE XI. - BOARD OF ADJUSTMENT

Sec. 30-698. - Create and appoint.

A board of adjustment is hereby created and appointed in accordance with the provisions of Wis. Stats. § 59.694. The board of adjustment shall have the duties and powers provided by Wis. Stats. § 59.694 and rules and bylaws of the county board of adjustment as adopted by the county board.

Sec. 30-699. - Expiration date for variances.

Any action authorized by variance shall expire 12 months from the date of signed decision document. If additional time is needed, a 12-month extension may be granted upon written request to the county zoning administrator. The action authorized by variance must be completed within 24 months from the date of the signed decision document.

Secs. 30-699—30-726. - Reserved.

Former § 30-699 pertained to powers of the board and derived from Land Use Pamphlet, § 11.1.

ARTICLE XII. - AMENDMENTS

Sec. 30-727. - Procedure.

The county board may amend this chapter in accordance with the procedures of Wis. Stats. § 59.69.

(Land Use Pamphlet, § 12.1)

Sec. 30-728. - Fee.

Any petition for amendment submitted shall be accompanied by a fee to defray the cost of advertising, investigation and processing. This fee shall be set by the county board and a copy of the current fee schedule shall be on file in the land services department.

(Land Use Pamphlet, § 12.2)

Secs. 30-729—30-754. - Reserved.

ARTICLE XIII. - PUBLIC HEARINGS

Sec. 30-755. - Notice.

Adequate notice shall be given of any public hearing required by the provisions of this chapter, stating the time and place of such hearing and the purpose for which it is being held.

(Land Use Pamphlet, § 13.1)

Sec. 30-756. - Procedure.

(a) The procedure for posting/publishing shall be as follows:

(1) Notice of public hearing shall be given as per Wis. Stats. § 59.69.

(2) In addition when the hearing involves a proposed change in the zoning district classification of any property or the granting of a conditional use the town in which the affected land is located shall be notified as per Wis. Stats. § 59.69.

STAFFING ANALYSIS

How does this position fit into the long range and strategic plans of the Department and/or County?

The AIS Coordinator is responsible for all aspects of the AIS Program to include, but not limited to, watercraft inspection, lake monitoring, guidance to lake associations and municipalities, grant writing and documentation, ordinance enforcement, and any other aspects of the program. This effort has a direct effect in Burnett County as it relates to protection of business, tourism, recreation, property values, and public health. This position also provides office support to the Land Services Department. Approximately 75% AIS and 25% Office Support.

How are the duties of this position currently being fulfilled?

Administrative tasks of the position are being completed by the County Conservationist and Administrative Assistant. The remaining duties are being delayed until the Coordinator position is filled.

Check all that apply:

☐ Services are mandated, or coverage is required by state or federal laws/regulations (note the WI. Statute)

☐ Overtime or temporary replacement is required while this position is vacant

☐ Multiple positions are vacant/open at the same time

☐ Will cause the elimination of another position

Can the position costs be offset by eliminating or reducing to a lower priority function?

☐ Yes ☑ No

Has this position been reviewed to determine if it can be combined with or covered by another existing position either inter or intra department(s)?

☑ Yes ☐ No

For new positions, are there alternatives to providing the services (temporary help, part-time vs. full-time, help from other county departments, use of overtime for existing staff, contracting out for the service, providing flexible work hours, eliminating unnecessary work?)

☐ Yes ☐ No

Describe alternatives to filling position that have been considered.

We have looked into sharing some of the duties with neighboring counties although they would not be able to support an AIS program for Burnett County in its entirety.

What would the impact be if position is not filled?

Potential for increased spread and lack of containment of Aquatic Invasive Species; loss of funding; negative impact on property values, tourism, business, public health. As for the office support, delays in processing permits and providing information/services to customers.

Burnett County  
Position Description

Position: AIS Coordinator / Office Support
Department: Land Services
Accountable to: Jason Towne, County Surveyor  
Dave Ferris, County Conservationist
FSLA: Non-Exempt  
Status: Regular Full-Time

Summary:

Under the direction of the County Conservationist, the AIS Coordinator is responsible to work on behalf of the County and in cooperation with the WI DNR and other agencies/partners on a comprehensive AIS program. This includes but is not limited to, inventory and evaluation; monitoring and/or control of current or potential invasives as well as leading a rapid response effort for any new infestations identified; watercraft inspection; lake monitoring; assistance to lake associations and towns; grant writing; support enforcement of the Burnett County Aquatic Invasive Species Ordinance; and any other aspects of an invasive species program that may arise. This position will also provide a variety of office support functions such as grant administration, assisting the public with permits and other office tasks.

Essential Functions of the Position:

- Clean Boats, Clean Waters – Serve as county coordinator for Clean Boats, Clean Waters watercraft inspection activity. Work with statewide CBCW coordinator and other counties to streamline delivery of training and materials. Maintain working list of lakes with active CBCW efforts and prioritize lakes for new CBCW efforts. Work with local groups to ensure complete and accurate data reporting into SWIMS.

- Citizen Lake Monitoring – Serve as county coordinator for Citizen Lake Monitoring Network aquatic invasive species monitoring. Work with statewide CLMN coordinator and other counties to streamline delivery of training and materials. Maintain working list of lakes with active CLMN efforts and prioritize lakes for new CLMN efforts. Work with local groups to ensure complete and accurate data reporting into SWIMS.

- Administrative Duties – Complete all AIS grant reports, documentation and correspondence as necessary or requested. Share success stories and photos with statewide AIS contacts through AIS listserv. Develop countywide maps for particular AIS species of concern (e.g. purple loosestrife; zebra mussels) to include lakes deemed “susceptible” by DNR criteria. Ensure
that data is reliable, accurate, and compatible with statewide data tracking systems (SWIMS). Accurate and complete record keeping is an utmost priority and cannot be emphasized strongly enough.

- Public Education and Outreach – Work with all interested partners to build a strong public outreach program. This program may include, but is not limited to, bait shop dealers, fishing contests, lake association contests, duck hunting clubs, greenhouses and nurseries, school science classes, etc. A component of this outreach will be the maintenance of AIS signage at all public/private waterfront access points.

- Rapid Response – Coordinate a County rapid response team to assist the County and lake associations with any new AIS infestations (existing or newly identified) and to establish a containment and control program.

- Aquatic Plant Management – Work with lakes groups to monitor and map aquatic plants and develop native plant protection and invasive plant control plans. Help plan, implement, and conduct aquatic invasive species treatment strategies for current AIS infestations, to include Japanese Knotweed and Phragmites, and any infestations that may be identified in the future.

- Countywide Biocontrol and Alternate Control Methods – Maintain the existing countywide project for purple loosestrife biocontrol, working with multiple partners and examine for possible opportunities to expand. Research any needed control methods to provide cost/benefit information for existing infestations.

- Terrestrial Invasive Species – Coordinate county plans and activities for the prevention and control of terrestrial invasive species.

- Serve as Coordinator, Liaison, and Mentor for all AIS functions in the County, partnering with lake associations, State, Federal & Tribal agencies, to include but not limited to, grant applications & reporting, permits & licensing procedures, project development and implementation, establishing strategies for the prevention and control of AIS, participation in meetings, email listserv, training sessions, research participation, and any other events that may occur. Create, expand and nurture an active network of stakeholders interested in AIS issues in the county.

- Supervise, train and coordinate scheduling of any invasive species staff.

- Manage grants from application to completion.

- Provide assistance to the public in a variety of ways from answering general questions to providing assistance with zoning permits.

- Provide office support for other programs and office support tasks as needed.
Qualification Requirements:

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions. Must possess a valid Wisconsin driver’s license and have access to a vehicle for on the job use if needed. WI DNR boating safety certificate within six months of hire will be required.

Education and/or Experience:

Desirable candidates will have a Bachelor’s degree in a natural resource field with one or more years of relevant work experience, a strong commitment to healthy lakes and to solving environmental problems through partnerships, and demonstrated experience in building networks and coordinating projects with multiple stakeholders. Valid Wisconsin Driver’s License and access to a vehicle for job use is required.

Other Knowledge, Skills and Abilities:

- Familiarity with computer software including word processing, spreadsheet, database, GIS packages, and ArcView.
- Ability to identify and survey aquatic macrophytes, and conduct water quality monitoring. Plant identification experience is beneficial with a focus on aquatic species.
- Knowledge of water quality planning techniques, particularly non-point elements, including identification of water quality problems and improvement objectives, and evaluation of cost-effective management approaches desirable.
- Ability to communicate with the general public, comfort with public speaking, and to establish and maintain effective working relationships.
- Must be able to work independently, maintain a timeline, and meet deadlines without exception.
- Ability to maintain accurate and complete records and prepare clear and detailed reports. Accurate and complete record keeping is an utmost priority and cannot be emphasized strongly enough.
- Knowledge of the Wisconsin Administrative Codes and Statutes, and Burnett County ordinances relating to the aquatic invasive species and other water related programs desirable.

Physical Demands:

Physical demands of this position vary from day to day and are highly dependent on the particular function being fulfilled on that day.
• Normal working conditions involve regular and recurrent exposure to the operating of equipment and adverse weather conditions such as wind, sun, high and low temperatures, herbicides, insecticides and other chemical spray operations.
• Protective gear and clothing such as hard hats, eye protection, boots and gloves may be necessary.
• The work requires regular and recurring physical exertion related to rough terrain, carrying equipment, and climbing steep banks, wading in shifting lake/stream beds, gathering vegetation for sampling which includes repetitive upper body motions, bending and twisting to inspect boats and trailers.
• Ability to lift 75 pounds or more.
• Ability to back, operate, and maneuver a vehicle with a boat trailer attached. Ability to flawlessly launch and load a boat on and off a trailer.
• Evening, weekend, and holiday hours may be required as necessitated by the demands of the position.

The abilities, duties, and responsibilities listed above are intended only as illustrations of the various types of work that may be performed. The omission of any specific statement of abilities, duties, or responsibilities does not exclude them from the position if the work is similar, related, or a logical assignment of the position. The position description does not constitute an employment agreement between the employer and employee and is subject to change by the employer as the needs of the employer and the requirements of the position change.

Position description created on February 14, 2018
February 5, 2019

To: Burnett County Land Use and Information Committee

COUNTY SURVEYOR’S REPORT
The following is a year to date summary of the USPLS Monument Records filed through December 31, 2018.

1. USPLS MONUMENT RECORD
   Filed in the past……………………………………3161
   Filed this period……………………………………0
   Total to date………………………………………3161
   Total in 2018 ……………………………………….54
   Total in Burnett County…………………………3272
   Percentage of completion………………………96.61%

2. CORNER MAINTENANCE RECORDS
   Filed in the past…………………………………3547
   Filed this period………………………………….0
   Total to date……………………………………….3547
   Total in 2018 ………………………………………128*+

MISC
1- 2018 Budget Report. Land Information with and without grants. Note: approximately - $127,000 going to the general fund (under budget for expenses and grant revenue).
2- Website statistics 12-26-18 to 1-29-19.

STAFF REPORTS
I have included a brief summary of what each Land Information Department staff member has been working on for the past month.

Tia Bowe – Parcel Mapping/GIS Analyst:
Parcel mapping for the Town of Oakland is ongoing, with approximately 750 parcels mapped in 12 sections to date. Analysis and quality control for the county's address point layer is complete. Approximately 1,800 records (or about 11% of the address point GIS database) contained omissions, errors, inconsistent or incomplete data. Also this month, Tracy and I are completing a 2-day ESRI Instructor-led course on how to migrate our maps and data to the new version of our mapping software. I am continuing to accept parcel split and merge requests from the Real Property Lister's office to keep our parcel map current.

Janyl Friese – Real Property Lister (RPL):
This office has reviewed 418-recorded documents, since my last report. I am currently working on documents recorded December 17.
I will continue working at reviewing documents recorded in 2018. After all documents are reviewed, changes made and all splits parcels processed and various other steps completed the tax database roll over to 2019 can be done. I will send out new parcel information to the assessors and work towards getting the work rolls out to the assessors.

*Report Continued on Next Page
Tracy Klatt – Land Information/GIS Technician:
I have issued some landuse, sanitary, and subdivision permits throughout this month.
I finished indexing the latest survey maps that have been turned in to our office, and sent them out to the website.
I finished working on some maps that were going to be included in the Burnett County Land and Water Resources Plan for 2020 – 2029 that our Land & Water Division has to submit to the state.
I submitted data to RESPEC – the company that our Land & Water division has a software through called MapFeeder that they use for all their site visits. They were going to update the MapFeeder software with this data.
I submitted our Municipal wards to the state to complete our requirement for the WISE Decade Boundary Annexation Survey. Each county needs to submit this data every January and July to the state.
I have done some other data requests that our office has received.
I started working more on making the changes in our 911 related GIS data to reflect the ambulance district boundaries. This has an effect on the road centerlines, address points, ambulance district boundary polygons, ESN (Emergency Service Number Zone polygons. Once completed these will all get updated in dispatch, and I will also be sending some of these changes to CenturyLink our 911 provider to update our MSAG (Master Street Address Guide)
I have sent many GIS data layers to ADC to update our GIS website with including our new 2018 Color 6in Aerial photos to be added as a new layer to our website.
I have also worked on updating some of the First Responder Boundaries in the county for dispatch.
Answered land related questions both on the phone and in person for the general public.
Printed various maps for the general public (aerial photos and parcel maps to scale).
Answered questions over the phone/in person on the WebXtreme site for people using it.

Thank you,

Jason Towne

Land Information Director
